## BULLETIN

### LABOR RELATIONS:

*Recent Amendments to Labor Code.* Minors 18 to 21 not effected by recent changes in Assembly Bill 3177, regarding employment of minors in agriculture and domestic fields. Generally speaking the requirements are that any minor under 18 must have a permit to work whether outside of school hours or, if excused from school attendance under provisions of law, during school hours; and that minors under 16 must have a permit to work during vacation and on nonschool days. Permits may be issued to minors 12 and 13 years of age only for nonschool days and during vacation, and no minor under 12 years may work at any time, except in domestic agriculture employment where he is working for his parent or guardian, on premises owned or controlled by the parent or guardian.

### STRIKES:

*"Hot Milk" — Norwalk.* On Monday, August 6th, 1951, the Hay Haulers local representative "A. F. of L." called on the dairy of John Oosten for the purpose of signing a closed shop agreement. John advised the representative that his employees were already being represented by another legal bargaining agent, "Christian Labor Alliance." The A. F. of L. representative stated they didn't recognize this organization and immediately placed a picket line at the dairy, declaring Oosten's milk unfair. In court action which followed Judge Arnold Praeger issued a preliminary injunction against the A. F. of L. The pickets were removed but the union employees at Knudsen's Creamery still refused to handle the milk. As we go to press, John Oosten, although suffering financial loss, is still maintaining his fight to operate his own business under the principals of our free enterprise system.

*Santa Ana.* Excelsior Creamery who are also struggling for free enterprise have had a picket line since January, 1946, and are again helping out in the above hot milk case. Give them your support.

### LABOR SUPPLY:

At present approximately 6500 seasonal farm workers are employed in Orange County. This includes about 2700 Mexican Nationals. Our peak will come in late September, after students return to school and other workers go north into grapes, tomatoes, walnuts, etc. Another 800 to 1000 men will then be necessary. Supply to date has been adequate. May be critical, as usual, from September 15 to October 15.

### SUBVERSIVE ACTIVITIES:

*Mrs. Ola Ross Pacifico.* Mrs. Pacifico was fired from her position January, 1949 in Los Angeles county for refusing to sign the loyalty affidavit. She came to Orange County and was hired April 6, 1949 as a public health nurse at the Orange County Hospital. Mrs. Pacifico is registered Independent Progressive Party member. Last week the Board of Supervisors abolished her position.

*Item of Importance.* In a recent issue of a leading communist publication a large section was taken up with the "Farm Question in California." At the 15th National Convention of the Communist Party the question was brought up of immediately organizing agriculture workers and the poor farmers of California. Quote "The Leninist Approach teaches us the immediate link between the city workers and the farming population are the agriculture laborers and poor farmers. To win we need the masses." This is to be accomplished by: 1. An alliance between left led unions and the grange. 2. Working through the Farmers Union, said to be led by socialist and progressives, was recommended. 3. Building the left and Marxist press in California through such publications as: (a) Farm Reporter; (b) Facts for Farmers; (c) Peoples World. 4. Recruiting new members through Party clubs in rural communities.

*Don't be Guilty of Saying This:* "Exposing Red activities will drive the Communist underground." They are underground and have been for two years. Many of the top Reds have moved to rural communities near Victorville and in Orange, Riverside and San Bernardino counties in California.

*Beware of "Peace" Organizations.* Many so called "Peace" organizations are communist fronts. Here are a few—American Peace Crusade, Maryland Committee for Peace, Labor Conference for Peace, Mid Century Conference for Peace, The Committee for Peaceful Alternatives to the Atlantic Pact, The American Committee for Protection of the Foreign Born, Independent Citizens Committee of the Arts, Sciences and Professions, World Peace Congress and the American Continental Congress for Peace. The Congress of American-Women is a Communist front organization created in 1946 as a branch of the Women's International Democratic Federation, and international Communist front for Women. In Political Affairs, a red publication, the boast is made regarding their successes with women and "Peace" movements. A plea was made to interest farm wives in "Peace" front organizations, they were urged to make this their number one project.

Watch for next month's bulletin which will contain important news regarding local subversive activities, organizations and educational programs as well as the usual information.

## BULLETIN

### LABOR RELATIONS:

*New Policy of State Employment Service.* An important change of policy was adopted October 3, 1951 by the State Department of Employment with regard to referral of so-called minority group workers. The following rules are effective immediately. (1) On all employer job orders, the department will refer "qualified" applicants with our regard to race, creed, color or national origin. (2) On job orders carrying discriminatory specifications, the department will endeavor to persuade the employer to remove restrictions. (3) The department will refuse to accept job orders which carry discriminatory specifications. Incidentally, all offices have been ordered to keep records on (a) employers who do not employ referred individuals of so called minority groups. (b) employers, who, on request, change their job specifications. (c) employers who refuse to change specifications and whose job orders are refused by the department.

### STRIKES:

*Hot Milk:* John Oosten's Dairy is still considered to be "Hot" by the A.F. of L. Local Unions involved in this jurisdictional dispute. In face of three court orders, the Knudsen employees still refuse to accept John's milk. Since our last bulletin the court has issued preliminary injunctions against the two locals involved as well as the Knudsen Creamery employees. In face of this, the Unions, holding true to their defiant attitude, refuse to COOL the milk. We are in this fight and still throwing straight punches.

### LABOR SUPPLY:

Farm labor supply in Orange County is adequate to complete the harvest. There have been some shortages during the season but, with the exception of less than ten acres of tomatoes, there has been no crop loss due to labor shortage. We are more fortunate in this matter than many other areas. Citrus brought 3557 Mexican Nationals into this county and vegetables contracted for 740. Crop loss would have been very heavy without this supplemental labor supply.

### SUBVERSIVE ACTIVITIES:

*In a current leading communist publication,* large space was devoted to the recent set-back given to Mrs. Benton Bowling, Secretary of the Burbank Board of Library Trustees. Mrs. Bowling had attempted to have the Burbank City Council pass a resolution to have the "red" books on the library shelves branded as "subversive literature." The communist article boasted that "because of the untiring efforts of a few private citizens and the A. F. of L. Machinist Aircraft Local 727, Burbank's Mayor Ralph Hilton and the city council was stopped from adopting a resolution to segregate and mark Un-American and immoral literature." It further stated he referred the matter to the League of California Cities in San Francisco and that on October 16th, Donald C. Skone-Palmer, legislative chairman of A. F. of L. Machinists Local 727, left for San Francisco to oppose any efforts made to pass a policy of the book-branding of subversive literature. The A. F. of L. Machinists Local 727 is one of the largest union locals in Southern California. The article stated that Mr. Skone-Palmer was speaking for the union which represents thousands of workers at Lockheed Aircraft.

*This is Vital Information For You Farmers:* Below are excerpts from the Farm Labor News under an article entitled "Union Organizes Shed Workers" which elaborated on how the agricultural workers had been kicked around. "These same hundreds of packers and floor workers move back in the fall to the navel orange harvests in Central and Southern California. The year around they pack oranges, apricots, plums, tomatoes, pears, apples, peaches. Some occasionally work in canneries which are under the jurisdiction of the A. F. of L. Teamsters.

Unless these people can be represented by a union which will protect their interests, their working conditions as well as their wages, they will be added to California's other thousands of underpaid farm workers. The logical union to represent the packers and shed workers is the NFLU. It is closest to their problems, more nearly parallels their work, is in a position to support any dispute they may have with management."

**NOTE:** If the Teamsters allow the NFLU to get into the packing sheds, we will have quite a jurisdictional dispute between the Teamsters, the CIO and the NFLU. You will recall, your attention was drawn in the last bulletin under ITEM OF IMPORTANCE, to a plan the communists have to work through socialist and progressive led unions.

### NOW WE CAN TELL YOU:

*On the Local Scene:* October 19, 1951 the United States Department of Immigration picked up the following Mexicans. Justo Cruz, Augustine Esparza, Andres Gonzales and Elias Espinoza. Cruz is a machinist, the others are pickers and packers in Orange groves near Santa Ana. From the Peoples Daily World, leading Communist daily newspaper we quote "Warrants used by the I-men charged all five with former membership in the Communist Party." It is interesting to note that the following front organizations have formed a defense committee, in the Huntington Beach area, these are: The Mexican American National Association (A.N.M.A.), the Independent Progressive Party, and the Los Angeles Committee for the Protection of Foreign Born. This of course did not come to the Associated Farmers as a complete surprise, as these characters and their activities have been known to us for some time.

In next month's Bulletin we will give you important news on local subversive activities as well as the usual information.

## BULLETIN

### "HOT MILK"? Or is it?

Since July 17th, 1951 John Oosten's dairy at Norwalk has been declared unfair by the A. F. of L. Local 737. This in spite of the fact that John Oosten employees are represented by another legal bargaining agent. The courts have issued injunctions against local 737 as well as against Local 93 of the Creamery Workers together with Knudsen Creamery. Many attempts have been made to deliver the milk since the issuance of the injunctions and in each instance when the milk arrived at Knudsen's Creamery we were met with defiant refusal to handle the milk resulting in serious loss of money and milk to Oosten.

### NOW:

As has been the case in each instance of union intimidation of this kind we have had to rely on our good friends the Excelsior Creamery to come to the rescue. The Excelsior Creamery are supporting members of the Associated Farmers and they are handling John Oosten's milk at considerable loss and under considerable difficulties. We therefore feel that each and every member of the 6000 comprising the membership of the Associated Farmers of Orange County get the facts so that you also will be placed in a position to assist in this fight. Excelsior voluntarily came to the aid of Oosten in the interests of free enterprise and the right to act as a free agent. Don't forget they have had a picket line at their plant for the past 6 years.

### HAVE YOU GIVEN ANY THOUGHT TO THIS?

Is the Union Closed Shop an attempt to deprive men of an essential of Life, Liberty and Property? In a "closed shop" no one can become and remain employed unless he is already a union member. In a "union shop" no one can hold a job unless he becomes a union member. While a "union closed shop" has many willing members it also has a larger number of unwilling members who have to join it and support it in order to hold a job and earn a living. A "union closed shop" opens the door of continuous employment only to union members.

### LABOR RELATIONS:

**Wage and Salary Stabilization Development:** On November 7, 1951 the Salary Stabilization Board issued General Order No. 4, applicable to foremen or supervisors in a position comparable to foremen, subject to its jurisdiction, providing that: "An employer who on or prior to January 25, 1951, had a plan or practice of paying foremen or supervisors additional compensation for hours worked in excess of a normal workweek may continue to pay additional compensation to such employees in accordance with such plan or practice. An employer who did not have such a plan or practice may pay a foreman or a supervisor in a position comparable to a foreman additional compensation during a regularly extended work week for hours worked in excess of the normal workweek, but the additional compensation shall not, without approval of the Office of Salary Stabilization, exceed his straight-time rates."

**RE ALERTED** — to steady increase in union organization in agriculture. W. A. Swearingen, National Farm Labor Union organizer and Wm. Becker have been successful in organizing the Raisin Growers Protective Association and obtaining a signed contract. Also plans are in the final stages of organization of cotton picking machine operators.

### LABOR SUPPLY:

Less than 200 Mexican Nationals remain in Orange County, practically all in vegetables. The present International agreement covering the use of these workers expires on February 10, 1952. A renewal of the agreement will probably require legislative action at the Federal level. There probably will be severe penalties for using illegals or "wets." Secretary of Labor Tobin is setting up a "Farm Labor Committee" of 18 men, 9 from the CIO and 9 from the A. F. of L., to work on policy and procedure problems relating to imported farm workers. This entire program is progressively becoming more involved and more expensive. How much more can the farmer tolerate?

### SUBVERSIVE ACTIVITIES:

A new front organization has been formed in Los Angeles. Known as the Trade Union Defense Committee its purpose will be two fold: (1) Repeal of the McCarran and Smith Acts. (2) Opposition to the government's deportation drive against the foreign born, particularly as it affects Mexican workers. Meeting was held at the CIO building. Ralph Caution of the Furniture Workers was elected provisional chairman. Elsie Monjar was chosen provisional secretary. Twenty-seven rank and file from a dozen trade unions formed the committee. The provisional executive board were named as follows: Bessie Rebeck, Robert Sambrano, Olive Thompson, Felix Pabon and Morris Rubin.

**On the local scene:** Following the arrest of the four Mexican aliens, Justo Cruz, Augustine Esparza, Andres Gonzales and Elias Espinoza the Orange County Independent Progressive Party led by such well known people as Rose Watkins, Z. R. Brown and others formed the Orange County Defense Committee and the Orange County Publicity Committee. The purpose of these committees (1) Publicize arrest of these individuals. (2) Raise bail funds to be posted for their release. (3) Secure defense council for them. (4) Organize the Mexican Community into a left wing pressure group. (5) Convince the Mexican community that the Independent Progressive Party is the only organization striving to protect the rights of and looking for the interest of "oppressed" minority groups.

All of the above Mexican aliens have now been released on bail. The local Orange County Committees prevailed upon Mrs. Lillian Duran for help and advice in securing their release. Mrs. Lillian Duran is now the executive director of the Los Angeles Committee for Protection of the Foreign Born. In 1949 Lillian Duran was an employee of the Orange County Hospital. Mrs. Duran is the sister of Mrs. Rose Chernin Kusnitz. Mrs. Rose Chernin Kusnitz you will recall was one of the top leaders of the Communist Party arrested in July, 1951 and accused of advocating violent overthrow of the United States Government. She was born in Vitebsk, Russia, September 14, 1902, and became a naturalized American Citizen in New York City in 1929.

## BULLETIN

### LABOR RELATIONS:

Friday and Saturday, February 1st and 2nd at 10:30 P.M. public hearings will be held in the State Building, Los Angeles by the State Industrial Welfare Commission. The purpose of these hearings is to consider changes in the present orders covering minimum wages, maximum hours and working conditions for women and minors in the following industries: Manufacturing, Personal Service, Canning and Preserving, Professional, Technical, Clerical and similar occupations, Public Housekeeping, Laundry, Dry Cleaning, Dyeing, Mercantile, Industries handling Farm Products after Harvest, Transportation, Amusement and Recreation. During the months of August through November, tripartite wage boards appointed for each of the above industries met, and recommendations by each board have been made to the commission. With respect to the minimum wage, employer representatives of the wage boards in most cases recommended no change in the present \$0.65 minimum, whereas employee representative recommendations ranged from \$0.65 to \$1.25. "We hope that employer representatives means that the employer himself is taking an interest in this matter."

It is well to remember that among the factors to be considered of a wage rate is that of the ability of the employer to pay. Returns from some commodities do not permit increase in any item of cost.

### STRIKES:

With reference to the dairy strike the current position is status quo pending court decisions.

### LABOR SUPPLY:

As the fields and orchards become dry enough for working there will be a shortage of farm workers. Lemons alone will need some 300 additional workers, and the need will increase steadily for months. The present Mexican National agreement expires on February 10, 1952. Efforts are being made to have the agreement extended or renewed before this date so there will be no lapse in the program. Representatives of farmers from all over the nation are in Washington attempting to expedite the matter. As we go to press they are conferring with President Truman, personally, on legislative angles of the program. It is apparently a foregone conclusion that there will be penalty legislation for employers using "wets." As usual, there is no guarantee that Mexican Nationals will be available. It takes a lot of work to keep such a program in effect, and there are many "prima donnas" to be consulted. Word was just received that representatives of farmers did call on President Truman, personally on January 21, for the purpose of quickly getting an extension or renewal of present agreement. The President stated that he would do nothing until legislation governing the handling of "wets" had passed, or he was reasonably sure it would pass the Congress. While he claims to realize the urgency of this matter, he is insisting on the renewal being on a basis acceptable to him.

### SUBVERSIVE ACTIVITIES:

In our bulletin Vol. 1, No. 2, you will note we gave you the names of several so-called "Peace" organizations. It is our belief that you would be interested in some of the history of these and we therefore will give you this information from time to time. The American Peace Crusade was organized during the Stalin-Hitler collaboration, in June, 1940. The Los Angeles meeting was called by the Los Angeles C.I.O. Industrial Union Council, the California Youth Legislature and the Hollywood Peace Forum and was supported by Labors Non-Partisan League. The sponsors of this organization included the National Legal Conference, Workers Alliance, Labors Non-Partisan League, California Youth Legislature, also Joseph Curran of the National Maritime Union, Theodore Dreiser, Jack McMichael of the American Youth Congress, Louis Goldblatt, Secretary of the California State C.I.O. Industrial Union Council, Herbert Biberman and numerous other organizations and individuals. A nation-wide conference of the American Peace Crusade was held in Chicago on August 31, to September 1, 1940. At this time a new organization was created which became known as the American Peace Mobilization. It was then announced that the American Peace Mobilization would take the place of the defunct American League for Peace and Democracy.

**WE WOULD LIKE TO CALL YOUR ATTENTION TO the Inter-continental Peace Conference of the Americas** taking place January 22 to 27th in Rio de Janeiro, Brazil. The conference is backed by such prominent individuals as Paul Robeson, Rt. Rev. Arthur W. Moulton (retired Episcopal Bishop of Utah), Hugh Bryson, Prof. Anatole Rapoport, Maurice Travis, Dr. Clementine Paolone and Dr. W. E. B. DuBois. Paul Robeson, who participated in the American Peace Congress in Chicago has also been active in several other Communist Front organizations such as the American Committee for Protection of the Foreign Born, Civil Rights Congress, Southern California win the Peace Committee to mention a few. Hugh Bryson is the president of the Marine Cooks and Stewards and also one to sign the first petition to put the Independent Progressive Party on the California ballot. At a meeting held December 11, 1951 in the Alexandria Hotel, Los Angeles, C. B. Baldwin, Progressive Party National secretary, declared that "communists are welcome in the Progressive Party as long as they accept the position of our party." Furthermore, said Baldwin, "We can do business with Russia." When asked if he didn't think Russia was pushing the rest of the world around, he laughed off the question saying he sees no danger of an attack by the Reds. On the contrary, "It's very significant that the United States is establishing military bases throughout the world." Asked if these weren't for defense, Baldwin replied, "There is no question that the United States policy is aggressive." Baldwin said the Progressives, known in California as the Independent Progressive Party, plan to put a "Peace Ticket" in the field in 1952. **Need we repeat—BEWARE OF PEACE ORGANIZATIONS, inspired by Stalinists.**

Rt. Rev. Arthur W. Moulton, retired Episcopal Bishop of Utah. Rev. Moulton together with one Thomas Mann were elected "Honorary" chairmen of the convention in Detroit of the American Committee for Protection of the Foreign Born. He was also a sponsor of the Second World Peace Congress, American Peace Crusade and supporter of a campaign by the Civil Rights Congress calling for the abolition of the House un-American Activities Committee.

Maurice Travis one of the sponsors of the National Conference held in Washington November 28, 1950, (This conference was made up of unions who had been ousted because of a communistic control.) Travis was active organizing for the C.I.O. in agriculture in 1937.

In next month's bulletin we will continue to give you backgrounds of other Peace Organizations and their backers.

## BULLETIN

### LABOR RELATIONS:

The Industrial Welfare Commission at their hearing in Los Angeles on February 1st and 2nd were asked by the groups of farmers present to withhold action on Order 8-R until such time that the Industrial Welfare Commission could appoint a committee to meet with representatives of agriculture for further discussions of these issues.

We would like to call your attention to a release by the Wage Stabilization Board January 29, 1952, San Francisco, California. "Regulation 11 allows employers to increase wage rates up to 10 percent — but no higher — of base rates paid during comparable periods in 1950 or 95 cents an hour, whichever is greater. The order also sets ceilings for monthly earnings. The ceilings cover all types of farm labor, regardless of the number of workers employed. It is not applicable to employees of packing sheds and other types of plants engaged in the processing of agricultural products. Such employees come under the regulation industry.

Penalties include civil and criminal actions. Civil penalties consist of a disallowance of total wage payments for Federal income tax purpose and criminal call for \$10,000 fine and imprisonment."

### LABOR SUPPLY:

The need for field and orchard workers will increase steadily until September, and even now all locals, who are able and willing to do farm work, are employed. Vegetable growers are using approximately 100 Mexican Nationals, and hope to have the present contract re-negotiated. All contracts expired on February 10th. Citrus now needs about 250 additional pickers, and will need twice that many within a few weeks. They hope to receive permission to contract Mexicans soon. State and Federal Farm Placement Service officials met with employers in Los Angeles this week to discuss problems pertinent to the shortage of farm workers. The old agreement has been extended for 90 days, and during this period the Federal Administration hopes to have enacted new penalty legislation covering the use of "wet-backs."

### SUBVERSIVE ACTIVITIES: "UNESCO"

WE CALL YOUR ATTENTION TO THE GREATEST SUBVERSIVE PLOT IN HISTORY—Unesco—The United Nations Educational, Scientific, and Cultural Organization. This is a scheme to pervert public education and appears in a series of nine volumes, titled "Toward World Understanding." These instruct kindergarten and elementary grade teachers in the fine art of preparing our children for the day when their first loyalty will be to world government of which the United States will be only an administrative part. Unesco's booklets read like the propaganda put out by the United World Federalist, Inc. The teacher is urged to devote every minute of classroom time for the cause of political world government. Every subject taught must serve or be revised in a manner that it is made to serve this same central objective. The teacher is to begin by eliminating any and all words, pictures, maps, phrases, descriptions, classroom material and teaching methods that cause the children to feel or express a particular love for, or loyalty to, the United States of America. Children that show such prejudice Unesco calls the outgrowth of narrow family spirit and recommend—an abundant measure of counter propaganda at the earliest possible age. For example the kindergarten or infant school teacher can not only correct many errors of this home training but can prepare the child for membership at about age seven in a group of his own age and habits the first of many such social identifications that he must achieve on his way to membership in world society. Teachers are urged to suppress American history and American geography, which might enhance pro-America sentiments which Unesco wishes to sterilize. Unesco's view on teaching these subjects to age groups 3 to 13 is as follows: History and geography is to be taught as universal history and geography. Geography lends itself well to the study during the above mentioned years. The study of history itself says raises problems of value which are better postponed until the child is freed from the nationalist prejudices which at present surround the teaching of history. In other words the teacher is instructed to purge American geography from elementary school classroom, by divorcing it from its national element, and to completely ignore teaching history until the child enters high school, since this subject cannot be similarly internationalized, and so is too risky to advance until the child's patriotic spirit has been thoroughly emasculated. Parents in eastern Pennsylvania who took time to investigate found that a number of public elementary schools dropped American History as standard, required subject.

ITEM OF INTEREST: Mrs. Ola Ross Pacifico, former employee of the Orange County Hospital, is listed as one of the many sponsors of the Citizens Committee to Preserve American Freedoms. Twin meetings were held February 12 in the Maynard and Arlington theatres, Los Angeles. Purpose of the meetings was to present all the facts concerning the doctors, lawyers and others now under attack by the House Un-American Committee, and to clarify their relation to patients, clients and the public in general.

## BULLETIN

### IMPORTANT ANNOUNCEMENT

The Associated Farmers of Orange County will hold their Annual Dinner Meeting April 22, 1952, at the American Legion Hall, 143, So. Lemon Street, Orange, California. Dinner will be served at 6:30 p.m.

The Public Relations Committee, chaired by Hal Balmer, is happy to announce that the Honorable Senator Jack B. Tenney has graciously accepted an invitation as guest speaker. Senator Tenney, as you all well know, has for many years worked endlessly to expose Communists, Fellow-travelers and Communist front organizations.

Tickets may be secured through your growers association or directly through Associated Farmers of Orange County headquarters, 506 No. Los Angeles St., Anaheim, Calif. Price of the tickets is \$2.50 each, and remember the ladies are invited to attend. Ticket reservations should be made no later than April 17, 1952, as we are limited to the number we can accommodate.

### SUBVERSIVE ACTIVITIES

UNESCO apologists will try to tell you that the nine volumes titled, "Toward World Understanding" contain a preface which states that the views expressed are those of the authors, and do not represent the official views of UNESCO. Your answer to this attempt to avoid responsibility should be that one who administers poison to our children is guilty of a crime, whether the prescription is official or other. These booklets may be obtained from the Columbia Press, New York City, New York.

Let's take a look at the United Nations—the charter of the U. N. was written by Alger Hiss (Hiss was convicted on two counts of perjury Jan. 21, 1950, and sentenced to five years in prison. He surrendered to Federal authorities to begin his prison sentence March 22, 1951, after the Supreme Court refused to review his conviction) assisted by Harry Dexter White, later cited before Congressional Un-American Activities Committee as a possible Communist, Molotov of Russia and Edward Stettinius who at the time was secretary of State. In articles 43 to 51 inclusive are revealed the fact that it was designed as an instrument of force; and the fagging of Russia in obtaining the preponderance of votes over ours proves that Russia intended to use it as an instrument of aggression against us. It was for this reason that a General Assembly had to be formed, in addition to the original Executive Council of the big five, wherein Russia and her satellites could be outvoted, and where her veto would not be permitted. Under the U. N. Charter the Constitutional right of Congress to declare war has been completely transferred to the Military Committee of the U. N., both in foreign countries as well as those comprised in the Atlantic Pact. Articles 43 to 51 inclusive, leave little doubt that the U. N. has the power to order us into war anytime, without the consent of Congress.

Mock United Nations sessions were held April 3 through 5, 1952, in Bovard Auditorium on the University of Southern California campus. Benjamin A. Cohen of Chile, Assistant Secretary General of the United Nations addressed the delegates Saturday night. It is interesting to note that the May 18, 1949, issue of the Peoples Daily World (official leading Communist paper on the West Coast) contains an article regarding the Congress of American Women presenting Asst. Secy. General of the U. N. Benjamin A. Cohen with a petition of many thousand names demanding the outlawing of the Atom bomb and urging the U. S. government to agree to a meeting of Truman and Stalin. Mr. Cohen according to this article told the delegation that it was a "real pleasure" to have the support of the Congress of American Women in the peace movement.

The Congress of American Women has status in the U. N. through the Women's International Democratic Federation. The Senate Fact Finding Committee on Un-American Activities in California finds the organization one of the most potentially dangerous of the many active Communist fronts. This organization was started in New York City on March 8, 1946, as an affiliate section of the Women's International Democratic Federation. The Los Angeles headquarters were located at 3410 1/2 Wilshire Blvd. and 666 1/2 Victoria Ave. Mrs. Frederic March, whose stage name is Florence Eldridge was called before the Un-American Activities Committee, February 18, 1948, in Los Angeles and testified that she attended a Paris meeting of the Women's International Democratic Federation as a delegate from the Congress of American Women. Another delegate to the Paris meeting from the Congress of American Women was Elizabeth Gurley Flynn, who has a long record of affiliation with the Communist Party. (Elizabeth Gurley Flynn you will recall was arrested June 21, 1951 in New York and was indicted under the Smith Act, her bail was set at \$15,000). Other women in California who played a prominent part in the early organizing of this organization were: Mrs. Rosalind Lindsmith of Oakland, California, and Mrs. Miriam Brooks Sherman, former employee of the University of California at Los Angeles. Being an affiliate section of the Women's International Democratic Federation, the Congress of American Women is subservient to it; therefore, the foreign policy of the Soviet is the prime authority since the international federation was conceived by the Kremlin and has always been under Russian domination. Delegates from women's communist front organizations were sent to attend various meetings of the Women's International Democratic Federation, from the following countries: Albania, Bulgaria, Czechoslovakia, Hungary, Rumania, Poland, France, Finland, Italy, Germany, Red China, North Korea, Switzerland and the United States. The first meeting was held in the summer of 1946 in Paris, the second in December 1948 in Budapest and the third, November 20, 1949 in Moscow. The undisputed boss of this international federation of women is Nina Popova, Soviet Judge.

The Congress of American Women launched an intensive campaign in Los Angeles March, 1947, for three candidates for the Los Angeles Board of Education. The candidates were Dr. H. Claude Hudson, Walter Turner and Raphael Koenigsburg. These left-wing supported candidates were also backed by the Citizens Committee for Better Education (named by the Un-American Activities Committee as Communist front).

### LABOR RELATIONS:

The Industrial Welfare Commission at their hearing in Los Angeles on February 1st and 2nd were asked by the groups of farmers present to withhold action on Order 8-K until such time that the Industrial Welfare Commission could appoint a committee to meet with representatives of agriculture for further discussions of these issues.

We would like to call your attention to a release by the Wage Stabilization Board January 29, 1952, San Francisco, California. "Regulation 11 allows employers to increase wage rates up to 10 percent — but no higher — of base rates paid during comparable periods in 1950 or 95 cents an hour, whichever is greater. The order also sets ceilings for monthly earnings. The ceilings cover all types of farm labor, regardless of the number of workers employed. It is not applicable to employees of packing sheds and other types of plants engaged in the processing of agricultural products. Such employees come under the regulation industry.

Penalties include civil and criminal actions. Civil penalties consist of a disallowance of total wage payments for Federal income tax purpose and criminal call for \$10,000 fine and imprisonment."

### LABOR SUPPLY:

The need for field and orchard workers will increase steadily until September, and even now all locals, who are able and willing to do farm work, are employed. Vegetable growers are using approximately 100 Mexican Nationals, and hope to have the present contract re-newed. All contracts expired on February 10th. Citrus now needs about 250 additional pickers, and will need twice that many within a few weeks. They hope to receive permission to contract Mexicans soon. State and Federal Farm Placement Service officials met with employers in Los Angeles this week to discuss problems pertinent to the shortage of farm workers. The old agreement has been extended for 90 days, and during this period the Federal Administration hopes to have enacted new penalty legislation covering the use of "wet-backs."

### SUBVERSIVE ACTIVITIES: "UNESCO"

WE CALL YOUR ATTENTION TO THE GREATEST SUBVERSIVE PLOT IN HISTORY—Unesco—The United Nations Educational, Scientific, and Cultural Organization. This is a scheme to pervert public education and appears in a series of nine volumes, titled "Toward World Understanding." These instruct kindergarten and elementary grade teachers in the fine art of preparing our children for the day when their first loyalty will be to world government of which the United States will be only an administrative part. Unesco's booklets read like the propaganda put out by the United World Federalist, Inc. The teacher is urged to devote every minute of classroom time for the cause of political world government. Every subject taught must serve or be revised in a manner that it is made to serve this same central objective. The teacher is to begin by eliminating any and all words, pictures, maps, phrases, descriptions, classroom material and teaching methods that cause the children to feel or express a particular love for, or loyalty to, the United States of America. Children that show such prejudice Unesco calls the outgrowth of narrow family spirit and recommend—an abundant measure of counter propaganda at the earliest possible age. For example the kindergarten or infant school teacher can not only correct many errors of this home training but can prepare the child for membership in about age seven in a group of his own age and habits the view of many such social identifications that he must achieve on his way to membership in world society. Teachers are urged to suppress American history and American geography, which might enhance pro-America sentiments which Unesco wishes to sterilize. Unesco's view on teaching these subjects to age groups 3 to 13 is as follows: History and geography is to be taught as universal history and geography. Geography lends itself well to the study during the above mentioned years. The study of history they say raises problems of value which are better postponed until the child is freed from the nationalist prejudices which at present surround the teaching of history. In other words the teacher is instructed to purge American geography from elementary school classroom, by divorcing it from its national element, and to completely ignore teaching history until the child enters high school, since this subject cannot be similarly internationalized, and so is too risky to advance until the child's patriotic spirit has been thoroughly emasculated. Parents in eastern Pennsylvania who took time to investigate found that a number of public elementary schools dropped American History as standard, required subject.

ITEM OF INTEREST: Mrs. Ola Ross Pacifico, former employee of the Orange County Hospital, is listed as one of the many sponsors of the Citizens Committee to Preserve American Freedoms. Twin meetings were held February 12 in the Maynard and Arlington theatres, Los Angeles. Purpose of the meetings was to present all the facts concerning the doctors, lawyers and others now under attack by the House Un-American Committee, and to clarify their relation to patients, clients and the public in general.

BILL CALLAN, Secretary.

# ASSOCIATED FARMERS OF ORANGE COUNTY

ANAHEIM, CALIFORNIA

## BULLETIN

### IMPORTANT ANNOUNCEMENT

The Associated Farmers of Orange County will hold their Annual Dinner Meeting April 22, 1952, at the American Legion Hall, 145, So. Lemon Street, Orange, California. Dinner will be served at 6:30 p.m.

The Public Relations Committee, chaired by Hal Balmer, is happy to announce that the Honorable Senator Jack B. Tenney has graciously accepted an invitation as guest speaker. Senator Tenney, as you all well know, has for many years worked endlessly to expose Communists, Fellow-travelers and Communist front organizations.

Tickets may be secured through your growers association or directly through Associated Farmers of Orange County headquarters, 506 No. Los Angeles St., Anaheim, Calif. Price of the tickets is \$2.50 each, and remember the ladies are invited to attend. Ticket reservations should be made no later than April 17, 1952, as we are limited to the number we can accommodate.

### SUBVERSIVE ACTIVITIES

UNESCO apologists will try to tell you that the nine volumes titled, "Toward World Understanding" contain a preface which states that the views expressed are those of the authors, and do not represent the official views of UNESCO. Your answer to this attempt to avoid responsibility should be that one who administers poison to our children is guilty of a crime, whether the prescription is official or other. These booklets may be obtained from the Columbia Press, New York City, New York.

Let's take a look at the United Nations—the charter of the U. N. was written by Alger Hiss (Hiss was convicted on two counts of perjury Jan. 21, 1950, and sentenced to five years in prison. He surrendered to Federal authorities to begin his prison sentence March 22, 1951, after the Supreme Court refused to review his conviction) assisted by Harry Dexter White, later cited before Congressional Un-American Activities Committee as a possible Communist, Molotov of Russia and Edward Stettinius who at the time was secretary of State. In articles 43 to 51 inclusive are revealed the fact that it was designed as an instrument of force; and the fanning of Russia in obtaining the preponderance of votes over ours proves that Russia intended to be used as an instrument of aggression against us. It was for this reason that a General Assembly had to be formed, in addition to the original Executive Council of the big five, wherein Russia and her satellites could be outvoted, and where her veto would not be permitted. Under the U. N. Charter the Constitutional rights of Congress to declare war has been completely transferred to the Military Committee of the U. N., both in foreign countries as well as those comprised in the Atlantic Pact. Articles 43 to 51 inclusive, leave little doubt that the U. N. has the power to order us into war anytime, without the consent of Congress.

Mock United Nations sessions were held April 3 through 5, 1952, in Bovard Auditorium on the University of Southern California campus. Benjamin A. Cohen of Chile, Assistant Secretary General of the United Nations addressed the delegates Saturday night. It is interesting to note that the May 18, 1949, issue of the Peoples Daily World (official leading Communist paper on the West Coast) contains an article regarding the Congress of American Women presenting Asst. Secy. General of the U. N. Benjamin A. Cohen with a petition of many thousand names demanding the outlawing of the Atom bomb and urging the U. S. government to agree to a meeting of Truman and Stalin. Mr. Cohen according to this article told the delegation that it was a "real pleasure" to have the support of the Congress of American Women in the peace movement.

The Congress of American Women has status in the U. N. through the Women's International Democratic Federation. The Senate Fact Finding Committee on Un-American Activities in California finds the organization one of the most potentially dangerous of the many active Communist fronts. This organization was started in New York City on March 8, 1946, as an affiliate section of the Women's International Democratic Federation. The Los Angeles headquarters were located at 3410 1/2 Wilshire Blvd. and 666 1/2 Victoria Ave. Mrs. Frederic March, whose stage name is Florence Eldridge was called before the Un-American Activities Committee, February 18, 1948, in Los Angeles and testified that she attended a Paris meeting of the Women's International Democratic Federation as a delegate from the Congress of American Women. Another delegate to the Paris meeting from the Congress of American Women was Elizabeth Gurley Flynn, who has a long record of affiliation with the Communist Party. (Elizabeth Gurley Flynn you will recall was arrested June 21, 1951 in New York and was indicted under the Smith Act, her bail was set at \$15,000.) Other women in California who played a prominent part in the early organizing of this organization were: Mrs. Rosalind Lindsmith of Oakland, California, and Mrs. Miriam Brooks Sherman, former employee of the University of California at Los Angeles. Being an affiliate section of the Women's International Democratic Federation, the Congress of American Women is subservient to it; therefore, the foreign policy of the Soviet Union is the prime authority since the international federation was conceived by the Kremlin and has always been under Russian domination. Delegates from women's communist front organizations were sent to attend various meetings of the Women's International Democratic Federation, from the following countries: Albania, Bulgaria, Czechoslovakia, Hungary, Rumania, Poland, France, Finland, Italy, Germany, Red China, North Korea, Switzerland and the United States. The first meeting was held in the summer of 1946 in Paris, the second in December 1948 in Budapest and the third, November 20, 1949 in Moscow. The undisputed boss of this international federation of women is Nina Popova, Soviet Judge.

The Congress of American Women launched an intensive campaign in Los Angeles March, 1947, for three candidates for the Los Angeles Board of Education. The candidates were Dr. H. Claude Hudson, Walter Turner and Raphael Koenigsburg. These left-wing supported candidates were also backed by the Citizens Committee for Better Education (named by the Un-American Activities Committee as Communist front).

## BULLETIN

MAY, 1952

**LABOR RELATIONS**—The Industrial Welfare Commission recently held executive meetings during which the drafting of revised orders was discussed. At one of such meetings the commission agreed that there would be no change in the definition of industries handling farm products after harvest as now contained in Order 8-R.

**SUBVERSIVE ACTIVITIES**—That the Communist Party has devised a system of subversive infiltration of teachers and textbooks, into our educational system cannot be denied. From their own documents we present to you some facts regarding their programing for your consideration.

The following is the **PLEDGE OF THE YOUNG WORKERS LEAGUE OF AMERICA**. "I pledge myself always to fight for the interest of the working class and the toiling youth, and to do all in my power to learn to become a loyal fighter for the overthrow of the rule of the Capitalists and for the establishment of the rule of the workers and farmers."

The Third (Communist) International was organized in Moscow, Russia, at a conference held March 2 to 6, 1919, by the Russian Communist Party. Attending this conference were the Communist Parties of Poland, Hungary, German-Austria, Lettland, Finland and the Balkan Revolutionary Socialist Federation. Delegates attended from radical parties from Armenia, Bulgaria, Bohemia, Estonia, France, Germany, Great Britain, Holland, Korea, Norway, Persia, Rumania, Switzerland, Turkey, Turkistan, Ukraine, Yugoslavia, and the United States. Boris Reinstein, then a member of the Socialist Party was the American representative. A program for world revolution was formed and adopted, Communist organizations in all countries were to be started. This program was drafted by Lenin, Trotsky, Zinoviev, Rakovsky and Platten. On December 4, 1922 in Moscow, a Young Communist International was organized at a conference called for that purpose. Gil Green, National President of the American section of the Young Communist International was a member of the Executive Committee of the International. Officers of the American branch were: Samuel Dorsey, national secretary; Joseph Angelo, Samuel Don, John Harvey, William Herberg, Nat Kaplan, Angelo Metz, George Pappun, H. V. Phillips, Max Salzman, Al Schapp, Max Schachtman, Peter Shapiro, Morris Shindler, Jack Stachel, Patrick J. Toohey, Hon. Williamson, Sam Winocur, Herbert Yam and William Schneiderman. Schneiderman, you all doubt know, is one of the top leaders of the Communist Party in California and is currently out on bail. He also is the individual that was scheduled to speak at a meeting sponsored by the Eastside Defense Committee on April 3, 1952 at the Roosevelt High School in Los Angeles. (This meeting was cancelled on a ruling by the county counsel.) Zinoviev engineered this youth conference. The entire program of the Third Communist International was approved and adopted.

At the Third Congress of the Young Communist International over 90 delegates attended. They represented Russia, Europe, North and South America, Australia, and Africa. Two delegates represented the "Reds" of the United States at this conference. The Fourth Congress was held in Moscow, July, 1924. The young "Reds" of the United States had three delegates and fraternal representatives present. It was reported that since its inception over 1,000,000 members had been attained. The American Section was known as the Young Workers League, organized in 1921. This group held a Congress in St. Paul, Minn., June 17th, 1924, and at that time it claimed a membership of over 4,000 in its 150 branches throughout the United States. At a meeting of the Young Communist International in Moscow, April, 1925 the formation of the Young Pioneers took place. This branch of the Young Communist International is the kindergarten of Communism. It takes members from 8 through 14 years of age. The first Congress for this new organization was held in Moscow September and October, 1925, and reports claimed a membership of 1,500,000.

The Young Communist Workers League of the United States, affiliated with the Young Communist International of Moscow, by resolutions adopted at its third Congress held in Chicago, October 4 to 6, 1925. An official weekly organ was established, known as the Young Worker, published in newspaper style, and plans were adopted to organize training schools throughout the nation. It was at this same conference that the Young Pioneers League of America was organized and an official organ for that branch was established, known as the Young Comrade, a monthly magazine. Paul Crouch, a Communist soldier in the United States military prison at Alcatraz, California was elected as honorary member of the National Executive Committee of the Young Workers League. At a conference held February 28, 1926 in Bellaire, Ohio and on March 5, in New York City, it was reported that a national training school had been opened in Chicago where 16 students were attending. Three district schools were being conducted in Superior, Wis., Waukegan, Ill., and Winchendon, Mass., with full time courses and over 150 students in revolutionary work training. The Young Pioneers reported having organized 3 summer camps in Chicago, New York and Boston with over 800 children attending. They also reported they had conducted school strikes. November 20th, 1929, the Young Communist International celebrated its 10th birthday in Moscow. In November, 1930 the Young Communist League held forth in Chicago, Ill., and announced the inauguration of special school bulletins in public schools, where nuclei had been established, there were 18 such schools in New York alone. They also boasted of a number of full time schools ranging from Massachusetts to California.

The following is the Pledge of the Young Pioneers of America: "I pledge allegiance to the workers "red" flag and to the cause for which it stands. One aim throughout our lives—freedom for the working class."

## BULLETIN

SEPTEMBER, 1952

### FOREIGN LABOR SUPPLY

We have been advised that the Board of Directors of the California State Chamber of Commerce, meeting in Sacramento Friday, August 29, adopted the following recommendation pertaining to agriculture: That the State Chamber of Commerce request of the United States Department of Labor a re-interpretation of Article 21 of the International Agreement with Mexico and of Article 17 of the Individual Work Contract to specify that, if Mexican Nationals employed by an employer in this country desire to select a spokesman, he shall be selected from among the group then in the employ of said employer.

### SUBVERSIVE ACTIVITIES

#### Regarding our stand on UNESCO:

Following the February issue of the Bulletin on the controversial subject of UNESCO, we received a communication from The Department of State, The United States National Commission for UNESCO. On the letterhead is listed the names of the executive committee and committee members. Dealing only in DOCUMENTARY PROOF, as we do, we became alarmed when, after some months of research we find 21 of these names cited in the Special Committee on Un-American Activities, House of Representatives, United States Government, 1944. A partial list of these names include such well-knowns as Reinhold Niebuhr, Marc Connelly, Homer S. Brown, Paul Green, B. W. Huebsch, Gordon R. Clapp, M. L. Wilson, etc.

Reinhold Niebuhr appears as Vice-Chairman of the United States National Commission for UNESCO.

In the Investigation of Un-American Propaganda Activities in the United States, Special Committee on Un-American Activities House of Representatives, 78th Congress, Second Session — with Special Reference to the National Citizens Political Action Committee, the name REINHOLD NIEBUHR is cited 24 times. In Volume I and II, page 261 is the following "It has been clearly established by overwhelming evidence that the NATIONAL CITIZENS POLITICAL ACTION COMMITTEE is the major Communist front organization. Taken as a whole, includes a formidable list of confirmed fellow travelers of and frontiers for Communist organizations." Stemming out of the National Citizens Political Action Committee are listed such organizations as AMERICAN COMMITTEE FOR PROTECTION OF FOREIGN BORN, AMERICAN FRIENDS OF THE CHINESE PEOPLE, AMERICAN STUDENT UNION, CONSUMERS NATIONAL FEDERATION, CO-ORDINATING COMMITTEE TO LIFT EMBARGO, GERSON SUPPORTERS, NATIONAL RELIGION AND LABOR FOUNDATION, BOYCOTT AGAINST JAPANESE AGGRESSION, AMERICAN LEAGUE FOR PEACE AND DEMOCRACY, etc.

The name, Reinhold Niebuhr is cited as follows: on the American committee, FOR PROTECTION OF FOREIGN BORN, national advisory board member of AMERICAN FRIENDS OF CHINESE PEOPLE, executive committee member of AMERICAN FRIENDS OF SPANISH DEMOCRACY, member of national committee of AMERICAN LEAGUE FOR PEACE AND DEMOCRACY. Page 389, American League for Peace and Democracy, "Was one of the most effective Communist front organizations ever operated in this country." Professor Reinhold Niebuhr, Union Theological Seminary, N. Y. C. endorsed the CONGRESS OF AMERICAN LEAGUE FOR PEACE AND DEMOCRACY, on advisory board of AMERICAN STUDENT UNION, member of committee, for BOYCOTT AGAINST JAPANESE AGGRESSION—which Attorney General Biddle in a quote says "shows testimony on front organizations, as this, were represented to the public for some legitimate reform objective but actually used by Communist Party to carry on its activities pending time when the Communists believe they can seize power through revolution." To go on — Reinhold Niebuhr — affiliated member of CONSUMERS NATIONAL FEDERATION (which Earl Browder, under oath as witness before Special Committee on Un-American Activities, identified CONSUMERS NATIONAL FEDERATION as a "transmission belt or organization through which the Communist Party extends its influence and ideology to groups which are broader than the party itself."

The name, Reinhold Niebuhr appears in 12 Exhibits offered as documentary proof in these volumes and also appears on the letterhead of the NATIONAL RELIGION AND LABOR FOUNDATION as being on the executive committee and this letter dated February 16, 1933 states "Therefore instead of attacking Soviet Russia, we are anxious to appreciate the contribution which it has made and, at the same time, build here in this section of the world an order that has all of the values of the one that is being created in the Soviet Union—"

In literature obtained from the United Nations headquarters in Los Angeles, we quote from The Evening Bulletin, Friday, February 1, 1952—in an article "What is UNESCO?" — "written by one of the builders, James Marshall, who has been closely connected with UNESCO affairs, as a member of the executive committee of the United States National Commission for UNESCO and advisor to the United States delegation to the UNESCO conference in Paris in 1946 and Mexico City in 1947." Mr. Marshall states in this article, "It is sometimes said that UNESCO is Godless. Nothing could be further from the truth. REINHOLD NIEBUHR, professor of applied Christianity at the Union Theological Seminary, was a member of the United States Delegation to UNESCO in 1949 and one of the principal speakers there." This is the same name which appears on the United States National Commission for UNESCO, as Vice-Chairman as late as April, 1952.

As space does not permit in this issue, we will go into the background of other names appearing on the U. S. Commission for UNESCO and also the documented background of some of the recommended authors in future issues.

We cannot stress too much, the importance of thoroughly looking into, any course of study offered in INTERNATIONAL Relations.

## BULLETIN

OCTOBER, 1952

### LABOR SUPPLY:

**MORE ALIENS?** The new National Immigration Law (the McCarran Act) permits the entrance of 155,000 aliens per year. Generally speaking, this means Europeans. As most authorities now agree that the United States is facing a permanent farm labor shortage, why not allow more Mexicans to enter on a permanent basis, rather than continue to operate on the present uncertain, and at times unworkable, short-time agreement?

### SUBVERSIVE ACTIVITIES:

#### WATCH FOR THE NEW DEFENSE OF UNESCO:

Apologist for UNESCO are now saying that "parts" of UNESCO should be supported. Is this the same as saying, "the end justifies the means"?

If any part of UNESCO is something of value to the United States citizens or their children, should any of the United States National Commission for UNESCO, or recommended authors, or anyone who in any way is connected with UNESCO have any question about them regarding their being loyal American citizens?

#### REFERRING AGAIN TO THE UNITED STATES NATIONAL COMMISSION FOR UNESCO:

**Executive Committee:** *We find the name PAUL GREEN:* In one investigative committee alone, the Special Committee on Un-American Activities, House of Representatives, United States Government, 1944 (Appendix Nine), we find this same name:

**PAUL GREEN:** Furniture Workers Local 4513, International United Furniture Workers — cited on pages 357, 359, 433, 838, 956, 1177, 1174, 1179.

**MEMBERS:** *We find the name MARC CONNELLY:* Why shouldn't Marc Connelly aka Connolly serve on the United States National Commission for UNESCO? This name appears in Appendix Nine on pages 263, 475, 770, 781, 782, 790, 1174, 1176, 1179, 1339f, 1547. A sample of these citations is as follows:

Page 779—"Among the members of the *National Citizens Political Action Committee*, the following are affiliated with the Hollywood Democratic Committee, MARC CONNELLY. The Hollywood Democratic Committee stems from a *long line of Communist front organizations* operating under various disguises which have been changed from time to time in accordance with the exigencies of the Communist line. Isaac Romaine, alias V. J. Jerome, Communist Commisar, was sent to Hollywood to help organize this Committee."

Marc Connelly, Los Angeles, — you will recall was one of the signers of a petition to the United States Supreme Court in 1949, requesting they reverse their decision of the contempt charges against the "Hollywood Ten."

**MEMBERS:** *We find the name M. L. WILSON:* Page 552—"We the undersigned call the American Youth Congress"—signer—M. L. WILSON, UNDER SECRETARY OF AGRICULTURE.

Page 535—"The American Youth Congress was one of the most influential front organizations ever set up by the Communist Party in this country."

Page 1587—M. L. WILSON, DIRECTOR OF EXTENSION WORK, U. S. DEPT. OF AGRICULTURE, WASH. D. C. — *Consultant for Southern Conference on Human Welfare.*

Page 1580—SOUTHERN CONFERENCE ON HUMAN WELFARE, behind a facade of loosely organized Southern "liberals" the Communist party has initiated and manipulated the Southern Conference for Human Welfare. Quote from Daily Worker, "Remarks of Comrade Browder—"In a sense, we can say that the Southern Conference for Human Welfare was a brilliant confirmation of the line of democratic fronts advanced by Comrades. Southern State organizations of the Communist Party were represented at the Conference by five Southern Communist Delegates."

It would be most interesting to know who picked or appointed such outstanding characters to serve our United States on this National Commission—representing you. Somewhere in some of the UNESCO material, we find the statement that as long as the United States has representatives serving on this commission who have the best interests of the United States at heart, we have nothing to fear, we are secure. Are we?

### SUBVERSIVE ACTIVITIES

Congratulations are in order to MARC CONNELLY—whose citations were given in our last bulletin, Vol. 10. He is now a member of the Executive Committee of the United States National Commission for UNESCO.

Continuing with the Federal and State documented citations on some more of the names appearing on the United States National Commission for UNESCO:

GEORGE SCHUSTER, managing editor of "The Commonweal." On the *National Advisory Committee* of the AMERICAN YOUTH CONGRESS. The American Youth Congress—for a period of 7 years from 1934 to 1941 the American Youth Congress was one of the *most influential* front organizations ever set up by the Communists in this country. It has been universally recognized that Communist were complete control. *Sponsor* of the NATIONAL WARTIME CONFERENCE OF THE PROFESSIONS, THE SCIENCE, ARTS. This conference was held in New York City, May, 1943. The program and committee of the National Wartime Conference are stacked with *well-known Communists* and fellow travelers.

Wm. ALBERT NOYES, *On executive committee* for AMERICAN COMMITTEE FOR DEMOCRACY and INTELLECTUAL FREEDOM. The American Committee for Democracy and Intellectual Freedom is a *Communist front* organization operating among college teachers and professors. A *member* of the NATIONAL COMMITTEE of AMERICAN COMMITTEE TO SAVE REFUGEES. American Committee to Save Refugees perform a most valuable function for the international Communist movement. These committees are a fruitful source of revenue from sympathetic individuals. *Committee member* and *sponsor* of the CITIZENS COMMITTEE FOR HARRY BRIDGES. Signer of a statement *defending the Communist Party*—addressed to the President and Congress of the United States.

LAWRENCE SMITH, "American Communist and sympathizers who fought for Loyalist Spain. This list contains 1600 names and is a *very accurate one*—a great many of them are a party of a scheme of helping Soviet Russia secure passports to use at a later date"—one of the names: LAWRENCE SMITH.

HERBERT S. GOLDSTEIN, *Sponsor* of the GREATER NEW YORK EMERGENCY CONFERENCE ON INALIENABLE RIGHTS. This organization arose during the period of Stalin-Hitler pact—included in its leadership well-known pro-Communists and Communists. *Member* of the NATIONAL EMERGENCY CONFERENCE FOR DEMOCRATICS—this organization teemed with fellow travelers and sympathizers of the Communist Party. *Member* NATIONAL FEDERATION FOR CONSTITUTIONAL LIBERTIES, probably the largest and most influential party front of the moment. One of the signers of an open letter to the U. S. Senate against the Dempsey Bill and McCormack Rider. "A warning to America" from *Rabbi Goldstein* to "investigate the F.B.I." "F.B.I will destroy every vestige of freedom."

MYRNA LOY, *Signer* of a statement published by COMMITTEE FOR THE FIRST AMENDMENT. This organization is a recently created Communist front in the defense of Communists and Communist fellow-travelers. Its immediate purpose is to create favorable public opinion for the Communists who refused to testify before the House Committee on Un-American Activities in Washington, D. C. *Signer* of a statement put out by the PROGRESSIVE CITIZENS OF AMERICA protesting the House Un-American Activities Committee investigation in Hollywood. (The Progressive Citizens of America are cited 59 times in State Un-American Activity hearings).

B. W. HUEBSCH, "I hereby inscribe my name in greeting to the people of the Soviet Union on the 20th anniversary of the establishment of the Soviet Republic," signer, B. W. Huebsch. Under oath Alexander Trachtenberg, member of the National Committee of the *Communist Party* and head of the *International Publishers*, official Communist publishing house, stated that he was founder of the BOOK UNION and named B. W. Huebsch as a person serving on the advisory council. The Book Union is the *Communist Book-of-the-Month Club*. The selection of the books is in the hands of the Communist board of editors. *Signer* of an open letter to the president—re: minority groups, sponsored by the INTERNATIONAL LABOR DEFENSE. This organization cited as the legal arm of the Communist Party—was part of an international network of organizations for the defense of *Communist lawbreakers*. *Signer* of letter to Gov. of Oklahoma re: Oklahoma City criminal syndicism conviction—and released by NATIONAL FEDERATION FOR CONSTITUTIONAL LIBERTIES. The National Federation for Constitutional Liberties is one of the viciously subversive organizations of the Communist Party—actually intended to protect Communist subversives from any penalties under the law—has been helpful to Communists who wish to evade and defy Government agencies investigation of subversive activities. California Committee on un-American Activities, Report 1948, pp 107-108, 201 and 327—"B. W. Huebsch is treasurer of the AMERICAN CIVIL LIBERTIES UNION. "The American Civil Liberties Union may be definitely classed as a Communist front or 'transmission belt' organization. At least 90 percent of its efforts are expended on behalf of Communists who come into conflict with the law. While it professes to stand for free speech, a free press and free assembly, it is quite obvious that its main function is to protect Communists in their activities of force and violence in their program to overthrow the government."

## — BULLETIN —

JANUARY, 1953

### SUBVERSIVE ACTIVITIES

In the Sixth Report, Un-American Activities in California, 1951—pages 212 to 243 are chapters concerning testimony on the relations and activities of *Steve Nelson*, (master spy, graduate of Lenin School, member of Communist Party National Committee in United States, student of Soviet secret police, and at present in prison serving a 20 year sentence plus \$10,000 fine)—*Prof. Haakon Chevalier*, (well-known fellow traveler and communist with 9 Federal citations and 23 in State hearings)—*George Eltenton*, (the atomic scientist who had done research work at the Leningrad Institute, belonged to FACT and usual array of Communist front organizations and lectured at the Communist School at San Francisco)—*Peter Ivanov*, (Soviet Vice-consul and top Soviet agent), with DR. J. ROBERT OPPENHEIMER. The hearings were concerning an attempt to secure the atomic secret from DR. OPPENHEIMER. In conclusion we find on page 241, quote "In 1943 Comrades *Ivanov*, *Eltenton* and *Chevalier* were unanimous in their considered evaluation of him as a *potential traitor* to his country. Here indeed was a curious web of associations. DR. OPPENHEIMER was a serious student of Marxism and Communism. Many of his scientific associates and closest friends were Party members. His brother and his sister-in-law were Communists. His wife's first husband died in Spain fighting for the Communist cause. His wife's friend, *Steve Nelson* was a visitor in OPPENHEIMER'S Berkeley home. Then OPPENHEIMER was made the bulls-eye of a top-level Communist espionage project by *Ivanov*, *Eltenton* and *Chevalier*. But there is much more solid evidence. There is the sworn testimony of Paul Crouch, putting OPPENHEIMER at a Special Section meeting in his own home." From page 243—"if a mistake was made in gauging the complete reliability of the man from whom the information was requested, and his reaction was that of a *normal, patriotic American citizen*, and he would reach for a telephone and report the entire matter to the nearest FBI office, then the entire espionage ring would be exposed. There is *no* evidence that DR. OPPENHEIMER ever picked up his telephone and called the FBI or any other security agency, after *Chevalier* attempted to attract the critical information from him. The facts are quite plain that these three men, *Eltenton*, *Chevalier* and *Ivanov*, were unanimous in picking DR. J. ROBT. OPPENHEIMER as the most suitable man to contact. They knew his record much better than our own security agencies, and they evaluated him as a *potential traitor*."

To inform you of some of the new additions made on the United States National Commission for UNESCO. We find the following names: DR. J. ROBERT OPPENHEIMER ! ! !

Also OTTO KLINEBERG: With 5 citations in Federal hearings—an example taken from page 340, Appendix Nine—"AMERICAN COMMITTEE FOR PROTECTION OF FOREIGN BORN — was founded by Communist Party in order to exploit racial divisions in the United States for it's own revolutionary purposes." Page 353—"Exhibit No. 5—Fifth National Conference of AMERICAN COMMITTEE FOR PROTECTION OF FOREIGN BORN—panel discussion on discrimination and deportation: PROF. OTTO KLINEBERG, Columbia University."

JOHN SLAWSON: 4 citations in Federal hearings. Taken from page 1568: "SOCIAL WORK TODAY is primarily a vehicle whereby the line of the Communist Party is promulgated among social workers in a form calculated to be most palatable and effective to this particular group." From page 1771: "The exhibits which are included in this section of the reports are *all* Communist fronts. They are as follows: Exhibit 11 and 12, lists of co-operators of SOCIAL WORK TODAY, Communist-line publication, New York City, JOHN SLAWSON."

FOOD FOR THOUGHT: If the UNESCO program is the necessary organization its promoters claim—to teach American youth about the other Nations of the world and thereby bring peace through understanding—why aren't the members of the United States National Commission for UNESCO, all the authors and in fact all of the personnel connected with UNESCO—people who have never had any citations at all, unless it be for valor toward America and the only smear against them being "super-patriot." Is it because these 100% Americans would not be able to understand UNESCO and its *real purpose* ? ? ?

The name BEN CHERRINGTON no longer appears on the official letterhead of the United States National Commission for UNESCO. However, we have discovered in the *National Education Association's* book, "Education for International Understanding in American Schools"—"The Committee"—BEN M. CHERRINGTON, director, Social Science Foundation, University of Denver, *chairman*, (Chairman of the committee on International Relations of the National Education Association) ! !

BEN CHERRINGTON: Is shown on page 477-478 (Federal report) as being on the American Advisory Board of THE OPEN ROAD. Page 466 speaks of "the following Communist-front organizations: OPEN ROAD." Page 471 explains the functions of this organization, "THE OPEN ROAD operated with the technical assistance in the Union of Soviet Socialist Republics for cultural relations with Foreign Countries (VOKS)." Page 515—"Communist controlled front organization, OPEN ROAD." Page 1312 "typical Communist organization and agencies such as "THE OPEN ROAD." Page 1390 "The familiar communist enterprises include the following: OPEN ROAD."

Along with Ben Cherrington, who's citations are given above, serving on this Committee of the National Education Association are RUFUS L. CLEMENT—who is cited on pages 331, 349, 353, 358, 369, 1168, 1585, 1589 and 1594 of Appendix Nine (federal) and in State reports 1948 pages 262, 271—1949 report pages 468, 480, 484, 499, 502, 513-515 and 518. JAMES T. SHOTWELL: (also on the Committee)—In Federal reports pages 348, 476, 620, 640 and 673 and in 1949 State reports page 483.

In the next issue of the bulletin, we will examine the material and authors recommended by the NATIONAL EDUCATION ASSOCIATION.

## (BULLETIN)

FEBRUARY, 1953

THE NATIONAL EDUCATION ASSOCIATION is an organization of teachers and school administrators for furthering the educational program and building the profession. It covers every phase of education and school policy. In December 31, 1952, the enrollment was 446,199. Many Orange County teachers belong.

In the preface of the N E A book "EDUCATION FOR INTERNATIONAL UNDERSTANDING IN AMERICAN SCHOOLS"—we find, "As the second World War came to an end, in 1945, the Executive Committee of the N E A of the United States asked the Association's Committee on International Relations to make a thorough study of the part that American schools could, and should, play in the maintenance of peace. What attitudes and understandings should be acquired by young citizens as they pass through the nation's elementary and secondary schools? This was the assignment.—This Volume, 'Education for International Understanding in American Schools, is the Committee's report of its study in preparing you to serve as citizens competent to deal with the complex problems of international relations and to contribute to the attainment of international cooperation and peace.' (NOTE: In the January Bulletin, we gave the citations of three of the members of this Committee).

On page 36 of the book, we find a sub-chapter "THE UNITED NATIONS EDUCATIONAL SCIENTIFIC AND CULTURAL ORGANIZATION. UNESCO offers a direct means through which the power of education may be channeled for the gradual achievement of its over-all objective. Every person has a part to play in promoting the purposes of UNESCO, but because of the nature of the job to be done, an extraordinarily large responsibility rests upon members of the teaching profession."

We have been told, by the authorities, that we do not have UNESCO in Orange County—but we do know that many teachers in Orange County are members of the N E A and they, therefore receive the monthly journal of the National Education Association. In these monthly issues we find such chapters as "The United Nations, UNESCO and American Schools."

An example of the material in the N E A book "Education for International Understanding in American Schools"—taken from page 185—"A suggested Survey of Attitudes To Be Used As A Basis For Critical Thinking, Discussion, and Unit Evaluation.

- A. Note to students: There are no "rights" and "wrongs" in this survey. Mark your responses as follows:  
A—if you agree —  
B—if you disagree —  
U—if you are uncertain —

(NOTE:—There are not two sides to this—no true or false. N E A says — it is "right." The only thing a student may say is that he either agrees, disagrees or is uncertain regarding this "right" issue).

- A. Suggested items for the attitude survey:
  1. Students in high schools in all countries of the world should use the same textbooks in history courses. The only difference would be that of language.
  9. To improve our understanding of the peoples of other countries, highschool students should be permitted to travel to other countries for study, at government expense."

In Chapter Six—"Aids and Sources"—"Reading of the Ten Marks of the World-Minded American"—"All Readings in this section are written on the adult level and may therefore be expected to be of most usefulness to teachers, but many of them may also be used profitably by secondary-school students." Written by, (the N E A says) "Recognized authorities"—

1. "The World-Minded American Realizes that Civilization May be Imperiled by Another World War." Out of the "recognized authorities" in this 'mark or chapter', six of them have a total of 35 citations—Federal and State. One of them HAROLD C. UREY, with 23 citations has contributed—"I'm a Frightened Man." (you may agree with Mr. Urey—taken from the Daily Peoples World, April 25, 1949, page 1—"PROF. HAROLD C. UREY, famed atomic scientist was characterized as *unfit* for further atomic work because of alleged membership in Communist-front organizations".)

(NOTE: The N E A apparently do not find him *unfit* to write for the minds of American youth.)

2. "The World-Minded American Wants a World at Peace in Which Liberty and Justice are Assured for All." Out of the "recognized authorities"—nine of them have a total of 106 citations, Federal and State.
3. "The World-Minded American Knows that Nothing in Human Nature Makes War Inevitable"—Out of these "recognized authorities"—seven of them have a total of 93 citations, Federal and State.
4. "The World-Minded American Believes that Education Can Become a Powerful Force For Achieving International Understanding and World Peace." Out of these "recognized authorities"—five of them have a total of 22 citations—Federal and State.
5. "The World-Minded American Knows and Understands How People in Other Lands Live and Recognizes the Common Humanity Which Underlies All Differences of Culture."

Out of these "recognized authorities"—seven have a total of 246 citations—Federal and State. Two of them, RUTH BENEDICT and GENE WELTFISH have contributed the pamphlet, "Races of Mankind" (along with other writing)—which, according to documented evidence "was banned by the war department." W. E. B. DUBOIS has contributed "Color and Democracy, Colonies and Peace." He has 51 citations—and according to the Daily World January 15, 1952—"W. E. B. DuBois has been barred by the State Dept. from travel abroad." From this same periodical, May 12, 1952—"W. E. B. DuBois was banned by the State Dept. from attending a Peace Congress in Canada." He was also the keynoter of the Independent Progressive Party National Convention, 1952—said party, as you know, has been called—page 62, 1948 State Un-American Activities in California, "In California the basic Communist-front organization"—and 1951 hearings, page 114—"The Independent Progressive Party—dominated by the Communist Party lock, stock and barrel." Page 471—1949 "the Independent Progressive Party is the above-ground organization of the Communist Party, which reorganized and went underground in 1949."

To save your reading time, the balance of the five "marks" or chapters—with their appropriate titles all about what the World-Minded American wants or should have—gives authors—"recognized authorities" who total 214 citations. One author alone has 52 and is the "authority" on "What Foreign Trade Means To You." We are speaking of MAXWELL S. STEWART. His Un-American Activities are so important that the joint fact-finding Committee on Un-American Activities in California, 1947 has one whole chapter dedicated to "RECORD OF MAXWELL S. STEWART." Among other very alarming activities we find "MAXWELL S. STEWART and his wife taught at the Moscow Institute in Russia." MARGUERITE N. STEWART, secretary of the Institute of Pacific Relations and author of "Land of the Soviets" which was edited by MAXWELL S. STEWART. This booklet—"Land of the Soviets"—is part of an over-all program for the softening of the coming generation by orienting youthful minds to the glories of Communism and directing disrespect and contempt for our traditions, our Flag and our Country."

It now appears that the National Education Association (working hand-in-glove with UNESCO) by giving the teachers and students such "authorities" as MAXWELL STEWART and the others we have cited—are not operating in what we call the best American interests of education. Further evidence will be continued in the next bulletin.

## BULLETIN

MARCH, 1953

The State Department has issued a booklet, "Films and People." It is a descriptive catalog of *Selected Films on United Nations and UNESCO*. This booklet has been prepared primarily for the third National Conference of the United States National Commission for UNESCO. Starting March 1st, a mobile unit was made available through the United Nations headquarters in Los Angeles, for the use of various organizations, with complete equipment to show the pictures including a commentator for the films selected. Some of these films may also be obtained from public libraries as the American Library Association is a member of the United States National Commission for UNESCO. Some of these films are even being shown in the public libraries, free of charge, as well as in some of the schools and churches.

One film, in this group, "THE BROTHERHOOD OF MAN"—in its screen credit states that it is based on a pamphlet "Races of Mankind"—co-authored by Dr. RUTH BENEDICT and Dr. GENE WELTFISH and adapted to the screen by RING LARDNER, JR.

Taken from the Un-American Activities in California 1948, page 192—"According to the Daily Worker of March 31, 1947, Page 11—"RING LARDNER, JR., collaborated with JOHN HUBLEY and PHIL EASTMAN in writing the screen version of "THE BROTHERHOOD OF MAN," an animated color cartoon produced by United Production of America for the Auto Worker's Union." This film was based on the pamphlet "The Races of Mankind"—co-authored by DR. RUTH BENEDICT and DR. GENE WELTFISH, which the war department banned. One of the agencies through which the BROTHERHOOD OF MAN can be obtained is the International Workers Order Film Division. The International Workers Order was cited by Attorney General Francis Biddle as one of the *Strongest Communist Organizations* and as a *Communist Front* by the Special Committee on Un-American Activities in January 3, 1940 and June 25, 1952."

NOTE: 10½ years later—we find this same film "THE BROTHERHOOD OF MAN" which was then obtainable through a cited Communist organization—now obtainable through UNESCO and The American Library Association!!!

DR. RUTH BENEDICT—was cited 13 times in Federal hearings alone and in one instance—page 357 is called a "Well-Known supporter of Communist-front organizations." However, our United States Federal bodies and UNESCO do not seem to agree. In the UNESCO booklet "Toward World Understanding" pamphlet VI, page 3—in mentioning the UNESCO seminar at Podesbrady, Czechoslovakia on the education of children between three and thirteen years of age—"Dr. Ruth Benedict's speech is given first. UNESCO is proud to have this opportunity of publishing a statement by a great American anthropologist — —". So, the Federal investigative committees find Dr. Benedict a "well-known supporter of Communist front organizations" and UNESCO finds her a *Great American*!!!! Both statements cannot be correct. Take your choice — the findings of the American Government — or the opinion of the International organization). Apparently the National Educational Association have made their choice and *do not* agree with our Federal Government findings! — as we find in the National Educational Association's book "Education for International Understanding in American Schools," Chapter 5—recommends "THE RACES OF MANKIND" — (banned by the war department)—co-authored by RUTH BENEDICT and GENE WELTFISH—"Patterns of Culture", author, RUTH BENEDICT—"Race and Cultural Relations: America's Answer to the Myth of a Master Race," co-author RUTH BENEDICT.

DR. GENE WELTFISH, former professor at Columbia University, we find cited 34 times. Dr. Weltfish was recently called before an Un-American Activity Committee (Senate) and took the 5th Amendment when asked about her pro-Communist affiliations. One citation reads, "no group of men in California history have been subject to the systematic, scientific, concentrated, vicious abuse and vituperation that has been heaped on the members, past and present, of the California Legislature's Committee on Un-American Activities. Among the more *Notorious* critics have been: GENE WELTFISH, etc. These persons cited are typical of the individuals within the various *Stalinist Orbits* about whose activities in *Stalinist Programs* and *Canters* your committee has presented factual reports or has taken sworn evidence."

(So again, we find "individuals within Stalinist orbits" appearing as writers for UNESCO and recognized authorities by the National Educational Association).

Back to this film, "THE BROTHERHOOD OF MAN" — the adaptation to the screen was made by RING LARDNER, JR., who has a long communist party record. His COMMUNIST PARTY REGISTRATION CARD was No. 47180 and he was one of the 10 Hollywood Communists and is serving time now in the Federal prison. One of his collaborators on "THE BROTHERHOOD OF MAN," PHIL EASTMAN was called before the Congressional Un-American Activity Committee in the Federal Bldg., Los Angeles, California — March of this year and he — appearing under subpoena refused to answer questions regarding his pro-Communist affiliations and activities and took the 5th Amendment.

Here is this film, taken from the writings of two cited subversives and adapted to the screen by a card-carrying Communist and a person who refused to co-operate with the Congress of the United States in their efforts to ferret out and control Communism, — this same film — being channeled through the United Nations, The American Library Association and UNESCO.

"THE RACES OF MANKIND" — the pamphlet (same one banned by the war department) co-authored by RUTH BENEDICT and GENE WELTFISH is available for adult reading. "IN HENRY'S BACKYARD" — the same story, same words only in hard book covers and the cartoons in color are available for young children. (Also co-authored by RUTH BENEDICT and GENE WELTFISH).

So this RACES OF MANKIND is available in pamphlet form for adults, in nursery book form for children. (In Henry's Backyard), or the film, (Brotherhood of Man) — all recommended by many educational publications, church publications and libraries.

For those who have either seen the film or read the book or pamphlet and have found no criticism of the material presented — should we patronize, support and recommend the work of Un-Americans such as the BENEDICTS, WELTFISHES, LARDNERS AND EASTMANS???? Also, is there no need for alarm about the National Educational Association, American Library Association or UNESCO's furthering the work of such people???

## BULLETIN

JANUARY, 1954

### SPECIAL ATTENTION

NOTE: This Bulletin—Vol. 2, No. 4—is the first bulletin put out since Vol. 2, No. 3 in March, 1953. These bulletins are put out according to Volume and Number for your convenience.

### LABOR RELATIONS

Union organizers, representing AF of L Sales Drivers, Food Processors, Warehousemen and Helpers Union Local 952—1501 W. Fourth Street, Santa Ana, California, have been attempting to have the Bolsa Packing Company of Santa Ana sign a collective bargaining agreement without benefit vote by employees. This, of course, is an unfair labor practice on the part of the union. Bolsa did not sign this agreement. Bolsa would be guilty of an unfair labor practice if they signed without first permitting the employees a vote to select a collective bargaining agent to represent them. The union went so far as to picket Bolsa in hopes of forcing them to sign. The picketing was a clear cut case of Secondary Boycott. The main office of the local is in Corona. The President is Dick DeVogelaere. Secretary-Treasurer is Lee Kearney.

### SUBVERSIVE ACTIVITIES

There seems to be no reason, as a private citizen, to worry too much about educational trends today. After all, you may say, this still is the United States and we don't have Federal control of education. This National Educational Association (N.E.A.) we hear about—isn't that just a group of educators who formed a national club because they are all teachers and have the same interests? What's all the hullabaloo? We don't have to have anything we don't want. Our American system of education is controlled not on a national level, not even on a state level. Our control is local and nobody can ever be empowered to sign an agreement or make a commitment regarding education that can effect us.

It may come as a shock to you to learn that the N.E.A. has other ideas. Back in October 19, 1946 issue of Schools and Society magazine, we find this interesting and prophetic article by William G. Carr, Associate Secretary of the N.E.A. entitled "Priority for UNESCO"—quote—"There are two objections which have sometimes been raised to the proposal that I have now developed. The first is that because certain federal governments do not have jurisdiction over the conduct of education in their respective states or provinces, these nations are not empowered to sign an agreement of this kind. I do not agree. It seems to me that the United States, for example, could in perfectly good faith sign an agreement that it would use all the resources available to it, under its ARRANGEMENTS for educational control, to encourage the teaching of international understanding and to DISCOURAGE OTHER KIND of teaching. We have an office of Education which exerts noncoercive leadership and influence in all the various states and localities. We could, if necessary, OBTAIN THE SIGNATURES OF THE VARIOUS STATE EDUCATIONAL AUTHORITIES. We have professional and civic associations that are deeply interested in education for peace. Our Department of State and other branches of our Federal Government have contracts with educational agencies and institutions. If it became the announced policy for the U.S. government to promote education for international understanding, many constructive things would happen in schools and colleges of the country, PUBLIC and PRIVATE. They would not be coerced, it is true, but THEY WOULD CONFORM, NEVERTHELESS. The results are what count. I am not impressed with the statement because a country does not control every single school within its boundaries it would be unable to sign a properly worded agreement to cooperate in working for the purpose of an international organization of which it is a member."

DID YOU KNOW THAT THE UNITED STATES HAS AN ARRANGEMENT FOR EDUCATIONAL CONTROL? Mr. Carr says it has.

Whether "it became the announced policy of the U. S. Government to promote education for international understanding" or not, seems to be beside the point because the N.E.A. appears to have decided it for them. They embrace UNESCO's technique which is to propagandize the United Nations in the educational system. Taken from "UNESCO AND ITS PROGRAMME" adopted at the General Conference, Florence, 1950—UNESCO's purpose is "to assist in extending and improving teaching about the United Nations and the Specialized Agencies". What could be plainer?—UNESCO's admitted purpose is to improve the teaching about the United Nations.

The next issue of the Bulletin will give you a few examples of the extent of their success and will also raise a question as to whether they are at variance with the Educational Code of the State of California.

### SUBVERSIVE ACTIVITIES

"Education for International Understanding in American Schools"—by the Committee on International Relations of the N.E.A.—offices—1201—16th Street, N. W.—Washington, D. C.—state on page 37—"UNESCO offers a direct means through which the power of education may be channeled for the gradual achievement of its over-all objective . . . Every person has a part to play in promoting the purposes of UNESCO but because of the nature of the job to be done an extraordinarily large responsibility rests upon members of the teaching profession".

We find proof of the success of the N.E.A. MANIPULATING the teaching profession in the promotional plan, in this same book, "Education for International Understanding in American Schools" as follows:

page 145—"direct and systematic study of UNESCO was introduced in 1947 into the social-studies program for eleventh and twelfth grades of the training school at the Moorhead, Minnesota, State Teachers College. Page 145—"Another report of extensive consideration of UNESCO in a high-school class comes from Deming, New Mexico. In carrying out this study, several student activities extended beyond the walls of the classroom. For example: An exhibit of UNESCO pamphlets was arranged by some of the students at the public library. For this exhibit and also for display at school, posters were made by the art department. The students formed a radio committee and a press committee to write letters to several leading newspapers and to radio stations asking that more publicity be given to this important organization".

THINK THIS ONE OVER. WOULD YOU SAY THIS WAS USING THE CLASSROOM AS A PROPAGANDA MEDIA?

Again from page 145—"In Baltimore in October 1947, senior students from the history classes of Douglas High School prepared as a broadcast over a local radio station a "Junior Town Meeting" program on the theme, "What Chance Has UNESCO to Make a Peaceful World?" Thousands of Maryland radio listeners heard this broadcast".—

HOW'S THIS FOR USING YOUNG STUDENTS FOR PROPAGANDA PURPOSES?

Page 146—"A workshop group of Nebraska teachers met at the state university to study about UNESCO and devise plans for introducing the study of UNESCO into the secondary school curriculum of the state. The outcome of this undertaking was a 39-page booklet entitled, "UNESCO and Nebraska Secondary Youth." This booklet contains information about UNESCO bibliographies and suggestions for teaching about UNESCO in social studies, language arts, science, music, and other subjects."

WE HAVE LONG MAINTAINED THAT UNESCO IS NOT A SUBJECT, AS SUCH. IT IS A TECHNIQUE WHICH PERMINATES EVERY SUBJECT TAUGHT IN THE SCHOOLS TODAY.

Continuing from page 146—"The June 1947 commencement program at Northampton Senior High School, Northampton, Pennsylvania, was entirely devoted to a dramatized interpretation of UNESCO, in which students assumed the roles of William Benton, Archibald MacLeish—" . . .

HOW ABOUT A COMMENCEMENT EXERCISE WHICH HAS A STUDENT PLAYING THE ROLE OF A PERSON SUCH AS 'ARCHIBALD MacLEISH' WHO HAS BEEN CITED 7 TIMES IN THE HEARINGS OF THE SPECIAL COMMITTEE ON UN-AMERICAN ACTIVITIES—HOUSE OF REPRESENTATIVES—SEVENTY-SEVENTH CONGRESS AND 8 TIMES BY THE SENATE FINDING COMMITTEE ON UN-AMERICAN ACTIVITIES IN CALIFORNIA—SIXTH REPORT—1951???

Page 147—"an assembly program written and planned by pupils in grade 6A of School No. 64, Baltimore, Maryland and presented on June 20, 1947 opened with 'Our class became interested in UNESCO through a current-events report about the United Nations and a discussion of the work of this organization'"—

THIS SEEMS A RATHER DEEP SUBJECT FOR 11 YEAR-OLDS—but not when you consider UNESCO's words—"The stage of civilization which the world has reached makes it imperative that from now on all children be taught some measure of international or universal history and that they would study the history of their own country ONLY in relation to its part in the development of the whole of humanity." So instead of learning about the great heroes of America who made our national history—a heretofore good level of study for that age group—they now delve into international agencies such as United Nations!!

On page 147 and 148—"In Alabama, the Birmingham Classroom Association became so deeply interested in the subject that the Association sent a delegation of sixteen of its members to attend the UNESCO General Conference in Mexico City in November 1947. As a result of the interest so stimulated, the Alabama Education Association has created a state-wide UNESCO Committee."

"The Public Schools of Boulder, Colorado, in 1947, initiated a series of activities to promote understanding of UNESCO — and implementation of the program of UNESCO — among teachers, pupils, and the community at large. Internationally known speakers were brought to Boulder for lectures and conferences. The program permeated not only the schools, but also reached the community as well. As a result, a city-wide organization for UNESCO has been established."

Page 187—"The Principia, a coeducational private school in St. Louis, Missouri, is one of several schools where in students have learned about the United Nations by participating in a "model" UN Assembly ("Student Model Assembly of the United Nations," bulletin of the National Association of Secondary School Principals, Feb. 1947, pp 103-107). Similar assemblies have been staged in Seattle, Detroit, Cincinnati and other cities."

Page 188—"At James Madison High School in Brooklyn, New York a United Nations Club has been organized. Students are frequently asked to address other school and public groups on the United Nations. Similar clubs have been organized in other places, many of them using the name "UNY"—United Nations Youth."

REPEAT THAT LAST—OVER TO YOURSELVES—UNITED NATIONS YOUTH!!! What happened to Young America?

The next issue will cite a local, Orange County example and also bring up the point we mentioned regarding the State of California Education Code.

## ~ BULLETIN ~

JUNE, 1954

### LABOR RELATIONS

The United States Immigration Service will be assisted in apprehending the Mexican wet-backs with 75 fraud investigators and 34 farm placement representatives, according to a statement issued recently by William A. Burkett, Director of the California Department of Employment. Mr. Burkett pointed out that while there were several thousand wet-backs working on farms in the state, there were also approximately 70,000 employed in industry in California.

Two proposals which may go to Congress on this subject are as follows: 1) Authorize a court injunction to restrain an employer from continuing to hire aliens illegally in the country when the employer has knowledge that the alien is an illegal entrant. 2) Authorize seizure and forfeiture of any vehicle or vessel used to transport aliens in violation of the immigration laws. (This pertains to smuggler's vehicles.)

Recently, Mr. Charles Gibbs, Executive Secretary of the Associated Farmers of California, succeeded in working out an arrangement which will be most beneficial to the farmer regarding labor problems. As a result of Mr. Gibbs' efforts, the California Farm Bureau Federation and the Agricultural Council of California, both powerful agricultural organizations in the state, have taken action urging their officers and members to refer all farm labor problems to the Associated Farmers' offices. In a letter to all Regional Secretaries of the Farm Bureau they were asked when each county office within their region heard of labor relations problems in connection with agriculture, that they either be advised or that the county office communicate directly with the closest field office of the Associated Farmers.

### FOOD FOR THOUGHT:

The Associated Farmers have always had nine objectives, all of which have to do with protecting our form of government. Numbers "Four" and "Five" of these objectives are as follows:

No. 4.—"To protect American Schools and the constitutional privileges which the educational system of America has brought to all children and students."

No. 5.—"To fight against the infiltration of subversive doctrines into the educational system and into the government."

Readers of these bulletins may have wondered at the deep concern of this organization into present trends of education. We believe that the farmer of America represents not only the "backbone" of the nation but the clearest example of individualism in the nation. Because, of this, the farmer has always been the target of the scheming of the Communists. Also, because of his rugged determination to be an individual fighting against collectivism, the farmer has always resisted the "conspiracy." The directive went out, a few years ago, (which was reported in one of our bulletins in the form of a warning), for the "comrades" to infiltrate the farm organizations, the granges, farm wives groups and farm youth forums. Unable to make headway in this obvious manner, we feel that their new and most devastating method, is to indoctrinate the young farmer during the process of his education in our school systems. Therefore, our basic, deep concern regarding the inroads that are being made today into the minds of our children. We believe that good education can be solved at the local level and that the schools belong to the people who support them and to the parents of the children who attend them. We do not believe in control at a national level or control by organizations of professional educationalists often supported by foundations whose purposes are judged by the background of their personnel.

The Educational Code of the State of California says — regarding "Propaganda and Solicitation of Funds" — No. 8274 — (a) "No bulletin, circular, or other publication of any character whose purpose is to spread propaganda or to foster membership in or subscriptions to the funds of any organization not directly under the control of the school authorities, or to be used as the basis of study or recitation or to supplement the regular school studies shall be distributed or suffered to be distributed or shown to the pupils of any public school, on the school premises during school hours or within one hour before the time of opening or within one hour after the time of closing of the school."

Now in a book called "UNESCO AND ITS PROGRAMME, The Basic Programme, adopted by the Fifth Session of the General Conference, Florence, 1950" — we find the purpose of Unesco is — "to assist educational authorities and teachers to prepare for use in primary and secondary schools examples of curricula and methods designed to increase, through all school subject, particularly history, geography, literature, modern languages and civics, international understanding and a sense of objectivity. Encourage the training of teachers and the improvement of textbooks and teaching materials from the point of view of international understanding. Assist in extending and improving TEACHING ABOUT THE UNITED NATIONS AND THE SPECIALIZED AGENCIES."

Therefore, it appears that Unesco is a propaganda agency used to sell United Nations. The California Code says — "no bulletin, circular, or other publication of any character whose purpose is to spread propaganda . . . of any organization not directly under control of the school authorities . . ." Does the United Nations and its Specialized Agencies come under the control of the school authorities?

Continuing with the Educational Code No. 8274 — (c) "No instruction shall be given through lectures or other means, unless the material contained in the bulletin, circular, or publication, or the purpose of the subscription or instruction has been approved by the State Board of Education or by the County Board of Education or by the governing board of the school district in which the school is situated."

Has the State Board of Education or the County Board of Education or governing board of the school district approved bulletins, circulars or other publications which propagandize the United Nations?

If not, then those who use Unesco's (admitted) technique of teaching — are violating the State Code.

If they have approved, what pressures were used? You are the one who is paying for the education of our youth, with your tax money. Have you shown the interest you should at the local level? Or are you leaving it up to the pressures at the national level — such as the National Educational Association?

## ~ BULLETIN ~

JULY, 1954

### FOOD FOR THOUGHT:

It is not an easy task to unravel the purposes and workings of the National Educational Association. However, a little study reveals many interesting facts about the people directing the education of our American Youth. Take one, Norman Woelfel, for example.

Research shows that Norman Woelfel received his B. S. degree in 1923 and his M. A. degree in 1924 at Teachers College of Columbia University. He took further work in study and teaching and returned to Teachers College and at the age of 38 in 1933 he received his Doctor of Philosophy. His doctoral dissertation was entitled: "A critical Review of the Social Attitudes of 17 Leaders on American Education." This was published as a book by the Columbia University Press under the title of "Molders of American Minds." A good circulation is indicated by more than three printing. Page 10 of this gem reads: "The younger generation is its own and the last thing that would interest modern youth is the salvaging of the Christian tradition. The environmental controls which technologists have achieved and the operations by means of which workers earn their livelihood need no aid or sanction from God nor any blessing from the Church." (Atheism???)

Then on page 240 of this same opus, "Active participation by educators and teachers in various organizations of the lay public agitating for social reforms . . . ." (Advocating teachers be agitators?????)

Same page — "Active participation of individual educators and of PROFESSIONAL ORGANIZATIONS OF EDUCATORS in the gradually crystallizing public effort to create out of prevailing chaos and confusion in economic, political, spiritual, ethical and artistic realms — a culture which is under NO CONTINUING OBLIGATIONS TO PAST AMERICAN CULTURAL PATTERN." (Do away with American traditions???)

Continuing — "A program of public vocational, professional and higher education integrally organized in terms of a social order wherein all natural resources and the entire industrial structure is controlled by governmental agencies and operated for the equal benefit of all. (Read this one over again, s-i-o-w-l-y!! — "all natural resources and the entire industrial structure CONTROLLED BY GOVERNMENTAL AGENCIES — operated for EQUAL benefit of all." Does this sound like American philosophy or ????)

Here's a familiar one — which is heard and objected to very frequently by parents of children in school — "Gradual abolition of specified grades, subjects, textbooks, testing and promotion schemes as conceived under the present administrative-supervisory set-up in public education."

In the January-February issue of "Progressive Education" — an article called, "The Educator, The New Deal, and Revolution," by Norman Woelfel appeared. Quoting from page 11 — "The call now is for the utmost capitalization of the discontent manifest among teachers for the benefit of revolutionary social goals. This means that ALL AVAILABLE ENERGIES OF RADICALLY INCLINED LEADERS WITHIN THE PROFESSION should be directed toward the building of a UNITED RADICAL FRONT."

And further — "If we wish the intelligent utilization of the marvelous natural resources and the superb productive machinery which America possesses, for all of the people, with common privileges, and an equal chance to all for the realization of exclusively human potentialities — that is possible, although we must not blindly shrink from the fact that it may require some USE OF FORCE AGAINST THOSE AT PRESENT PRIVILEGED." (Down with capitalism — and does this sound like revolution by use of force and violence?????)

In October 1934 a new magazine appeared — "The Social Frontier" — and Norman Woelfel was associated editor. Taken from this — "The age of individualism and laissez faire in economy and government is closing and a new age of collectivism is emerging." — Now comes the interest in the National Educational Association. "We submit to the membership of the N.E.A. that its role in the life of the nation would be greatly enhanced if it identified itself with an ideal of social living which alone can bring the social crises to a happy resolution — a COLLECTIVISTIC AND CLASSLESS SOCIETY."

It is interesting to note that Norman Woelfel, now Professor of Education at Ohio State University is now actively participating in the activities of the National Educational Association. One of the departments of the N.E.A. is the Association for Supervision and Curriculum Development and in the recently issued year book for 1953 entitled, "Forces Affecting American Education," we find Professor Woelfel a member of the supervising committee.

### LOCALLY SPEAKING:

Recently, in Orange County, young students entered a contest entitled "What the U. N. Means To Me." As the United Nations did not come into public consciousness until 1945 the average Mr. and Mrs. Adult Taxpayer do not know enough about the subject to write intelligently "What the U. N. Means To Me." Therefore, the conclusion is that 1) the students have studied this subject rather extensively in the classroom — 2) with more than casual time given to the subject. We hope that an equal amount of time is given to the study of traditional American History as is International Understanding, You and the United Nations, One World in the Making, Working Together in the United Nations, etc. (all recommended by the N.E.A.)

Students must also be aided in their knowledge of this subject by such proponents of N.E.A. and Unesco as Dr. Hugh Tiner, Dr. Cyrus Barnum and Dr. Robert Hutchins, all brought into Orange County to speak, by local groups. Audiences have sat and heard these magic tongued orators dismiss those who oppose Unesco, as super-patriots or uninformed. They refuse to listen to, or read the documentations against the founding fathers and present day directors of Unesco — such as Dr. J. Robert Oppenheimer — (whose pro-communist leanings were given in bulletin Vol. 2, No. 1, on January, 1953.) Instead the audiences remember the highlight of the speech when the scoring remark was — "why should we worry because Russia does not belong to Unesco."

It has been patiently pointed out that the Security Council of the U.N. controls Unesco and Russia has 3 votes to our 1 in the Security Council — but the speaker said "Russia doesn't belong to Unesco — so what is all the hullabaloo???"

What will these apologists for Unesco have to offer on their next speaking tour through our county — now that it has been made public that RUSSIA JOINED UNESCO ON MAY 12, 1954? — Also that Unesco has now set up the U.N. European Atomic Laboratory with an allotment of \$28,000,000 (of your tax dollar) to be spent in the next seven years. This information to be shared by 70 nations — including the Soviet Controlled countries (whose number is fast growing) as well as Russia herself!!!

# ASSOCIATED FARMERS OF ORANGE COUNTY

ANAHEIM, CALIFORNIA

~ BULLETIN ~  
QUARTER ENDING DECEMBER, 1954

## SPECIAL ATTENTION

NOTE: Our bulletins will be put out on a quarterly basis in the future.

## LABOR RELATIONS

In our bulletin of January, 1954, we brought to your attention the efforts of Clarence Brown and Lee Kearney (union organizers, representing the A. F. of L. Sales Drivers, Food Processors, Warehousemen and Helpers Union, Local 952, 1501 West 4th Street, Santa Ana) to force organization on the Bolsa Packing Company. The union is demanding that Bolsa commit an unfair labor practice by signing a collective bargaining agreement without the employees first being permitted to vote and select their agent who would represent them. The union, again sent pickets to the Bolsa Packing Company at a strategic time in operation, in a further attempt to force Bolsa to sign. In addition to and in conjunction with this effort, we understand that A. F. of L., Fruit and Product Drivers Warehousemen and Employees, Local 630, Los Angeles, has forced a boycott of Bolsa's products in the Los Angeles market.

## FOOD FOR THOUGHT:

There is a current surge of critical interest, on the part of parents and taxpayers, in California State Text-books and reference material.

This is a justified attitude because informed Americans agree with the statement of the United States Senate Subcommittee Investigating Subversive Influence in the Educational Process. After extensive hearings this committee came to the conclusion that: "World Communist leaders have made schools and colleges of the United States a target of infiltration and activity as part of their program to destroy the United States."

There are three basic objections to Communist or Communist-fronters writing for use in American classrooms.

**OBJECTION No. 1. IT IS ALMOST IMPOSSIBLE FOR A COMMUNIST SYMPATHIZER TO WRITE ON ANY SUBJECT WITHOUT SLANTING THE MATERIAL. IF HE NEGLECTS TO DO SO HE IS DISCIPLINED BY THE PARTY.**

To substantiate this statement, we have testimony of former Communist leaders such as Dr. Bella Dodd and Louis Budenz. Quoting from Dr. Dodd's testimony before the United States Senate Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws, of the Committee on the Judiciary, Washington, D. C. — Tuesday, March 10, 1953:

"No Communist can be a free agent. He is a soldier in the international army of world communism and he has a devotion to that principle over and above anything else there may be." "I will give it to you from two points of view. From the information we have from the Soviet Union and from the satellite countries, certainly we learn that the physicians, biologists, and the linguistic professors, were not free to pursue their own inquiry into the truth. They had to accept the Communist Party determination as to what was the truth. WITHIN OUR OWN COUNTRY, we have any number of illustrations of professors and WRITERS who from time to time have been called up before the Control Commission because they have either written or spoken or done that which was contrary to the Marxist-Leninist philosophy." "The Control Commission is the internal police of the Communist Party in any country there is."

**OBJECTION No. 2. COMMUNIST WRITERS HAVE THE TECHNIQUE OF ATTAINING SUCH PRESTIGE THAT STUDENTS LEARN TO ACCEPT THEIR OPINION ON ALMOST ANY SUBJECT AS AUTHORITATIVE AND UNQUESTIONABLE.**

Louis Budenz testified before the Senate Permanent Subcommittee investigating State Department Information Programs, Washington, D. C., March 24, 1953:

"The Communists consider books a very vital part of psychological warfare, as we now call it. They understand that if they can poison the wells of public opinion by any means, and they seek to infiltrate every channel of public opinion making, they can gain great headway making people in the country they wish to undermine think as the Kremlin wants them to think. Now, BOOKS ARE A VERY IMPORTANT WEAPON IN THIS CAMPAIGN. They need not necessarily always be Communist in character, because the prestige of the author also counts. If an author, for example, is put in a high-school library in the United States, we will say, the Communists count on his name becoming an authority among the students." "Their obligation as members of the Communist Party and as authors was, within the limitations of their field of activity, to forward the Communist cause in whatever manner possible. That is to say, if they could not embody it always in their books, they would have to embody it in CONTRIBUTING HEAVILY TO THE COMMUNIST PARTY, AND JOINING COMMUNIST FRONTS, IN LENDING THE PRESTIGE OF THEIR NAME TO THE LINE THAT THE KREMLIN WANTED ADVANCED AT ANY PARTICULAR MOMENT." "Perhaps I can illustrate this best by the use of the books within the United States, which I helped to direct, and that is the PLACING OF BOOKS IN THE LIBRARIES OF OUR HIGH SCHOOLS AND COLLEGES. That was a specific responsibility for the purpose of, first getting out the ideas of the authors to the students by making them required reading whenever possible, and then, secondly, using the prestige of the author so that when he engaged in any activity such as a pro-Communist cause, these people who had read his book would look up to him as an authority."

**OBJECTION No. 3. IT IS MOST USUAL PROCEDURE FOR AUTHORS TO RECEIVE ROYALTIES FROM THEIR WORKS. IT IS ALSO KNOWN FACT THAT A COMMUNIST IS BOUND TO PAY DUES TO THE PARTY AND CERTAIN PORTIONS OF HIS INCOME DO GO TO THE COMMUNIST PARTY IN OTHER WAYS ALSO, SUCH AS JOINING AND SUPPORTING "FRONTS" AND "CAUSES" — AS MR. BUDENZ PUTS IT IN THE PRECEDING PARAGRAPH — "CONTRIBUTING HEAVILY TO THE COMMUNIST PARTY." THEREFORE THE PORTION OF THE TAX-PAYER'S MONEY THAT IS USED TO BUY THE TEXT-BOOK, WRITTEN BY A COMMUNIST SYMPATHIZER — DOES END UP BEING CHanneled TO THE COMMUNIST PARTY.**

We have proof that these authors are given one of two directives when writing a book. 1), The book is slanted for propaganda purposes or, 2) the book is purposely clean to build the communist front's prestige. Unfortunately, proving that an author is a Communist sympathizer, is not enough to convince the school boards and trustees that the books should be removed from the class room and library.

OUR MAIN OBJECTIVE THEN, IS TO APPEAL TO THE TAX-PAYER TO STOP HIS MONEY FROM BEING PAID TO THE COMMUNIST-SYMPATHIZER, WHO IN TURN CHANNELS IT RIGHT BACK INTO THE COMMUNIST-PARTY.

Herman Borchardt, Ph.D. who was invited to Soviet Russia as a "foreign specialist" has this to say in his article "I Was A Teacher In Soviet Russia." — (He had been requested to write a text-book on grammar for use in the satellite countries). "The danger, I soon realized was in the fact that I played down Marxist ideology in favor of mere grammar." He was told, he relates — the following: "We will pay you well for the book but please remember that at least 50% of the reading matter, conversation pieces and the like, must carry a Marxist moral. That's a minimum requirement."

IT MIGHT BE INTERESTING TO REVIEW SOME OF OUR TEXT-BOOKS AND SEE IF THIS PATTERN IS FOLLOWED HERE — 50% ON THE SUBJECT AND 50% ON PROPAGANDA OR AUTHOR'S OPINION!

The problems of any sincere effort to expose subversion in education, labor or anywhere else is well explained by Dr. Bella Dodd in her further testimony as mentioned earlier — before the Committee on the Judiciary, United States Senate, March, 1953:

"The Communist Party knows how to fight very effectively against anyone who touches the Communist movement. If anyone tries to attack the Communist movement, the Communist Party immediately goes against the liberals, among its allies, and on various bases gets the support and help of these people to smear and to isolate the person who is hurting the Communists." "There is absolutely no doubt in my mind that anyone in America who dares to buck the Communist conspiracy is going to receive very rough treatment from the Communists, who learn how, unfortunately, TO UTILIZE MANY UNSUSPECTING PEOPLE, WHO THINK THAT THEY ARE SUPPORTING FREEDOM OF THOUGHT BUT WHO IN REALITY ARE THE BEST PROTECTIONS FOR THE COMMUNIST CONSPIRACY."

# ASSOCIATED FARMERS OF ORANGE COUNTY

BULLETIN, QUARTER ENDING DECEMBER, 1954

## LABOR RELATIONS: SOCIAL SECURITY FOR FARM FAMILIES—

A new Social Security law was passed by the last session of Congress and approved by the President which is important for all farmers. For the benefit of our members we are enclosing a pamphlet entitled "Facts For Farm Families." In connection with this new law there are four points we would like to call to your attention. (1) It is vitally important that you get a Social Security card or apply for a duplicate if you have had one and lost it. (2) Farm employers should also get an employer identification number if they do not already have one. (3) The farm employer is responsible for collecting the 2% tax from the employee when the cash wage of the farm employee totals \$100 in a calendar year. This is a change in the method of taxing qualifying wages of an employee in as much as the law covering regular employees does not tax the qualifying period wages. This makes a total payment due from the farm employer of 4%; (the 2% employee deduction plus the 2% employer contribution). (4) Farm operators over 65 years of age are covered under the new law and required to pay his 3% tax until retiring or quitting the active supervision of his farm. If you have further questions with regard to the Social Security law you may call the Social Security office. In Orange County their number is Kimberly 2-7271.

## SUBVERSIVE ACTIVITIES:

As impossible as it may seem, there is a direct connection between education, labor and farmers. All of the following is quoted directly from the pages of "THE COMMUNIST"—"A Magazine of the Theory and Practice of Marxism-Leninism Published Monthly by the Communist Party of the U.S.A." — This article, we are quoting from is called — "The Schools and the People's Front" — It is the BLUE-PRINT for the comrades and as you read it, bear in mind that this was written in May of 1937. Please note how well we have followed the path they laid out!!!

### "THE PUBLIC SCHOOL SYSTEM AND THE STATE"

"The public schools are community centers, which bring together the broadest strata of the population. They can play a role of the utmost importance in the development of a wide People's Front in the United States. The right to an education in America was won by a popular movement, the backbone of which was formed by the TRADE UNIONS. The labor movement has always been conscious of the importance of education." "That which is immediately apparent to anyone who studies public education must be the fact that the public school system is a part of the state machinery." "The right to free public education was won as a result of the struggles of education AS A WEAPON, and has always STRUGGLED TO OBTAIN this weapon." "Education has almost never been really free in view of the fact that children are rarely furnished with free textbooks, with free car or bus fare, or with free hot lunches." "One task confronting the People's Front or FARMER-LABOR Party movement must, therefore, be defense of free public education. This people's movement must concern itself not only with defending and extending the material basis of education, but also with CHANGING the CONTENT and QUALITY of education." "We must boldly counterpose a PROGRESSIVE philosophy of education which revitalizes the slogan which is the motto of the American Federation of Teachers, 'Democracy in Education; Education for Democracy.' This motto can give the slogan for a FARMER-LABOR philosophy of education, which must be developed as a rallying-call to educators out of the morass of pragmatism, away from medievalism, forward toward Marxism-Leninism." "We must consciously seek to give progressive educators a means of working out their educational programs in conjunction with the general program of the growing FARMER-LABOR movement. We must actually seek to help them put into realization new methods and TECHNIQUES OF TEACHING, NEW CURRICULA, and NEW METHODS OF ADMINISTRATION adjusted to the actual needs of children of workers and FARMERS."

### "THE PUBLIC SCHOOL SYSTEM AND THE CHILDREN"

"To the Majority of children, school seems dull and boring." "The rebelliousness of school children, directed against a part of the state machinery itself, is something that Communists cannot afford to ignore. This, together with their desire for knowledge and social life, must form the starting point for our work among students in the schools." "The problem is rather to guide and direct that spirit of rebelliousness which already exists. This means to root ourselves in the lives of the majority of the students." "The broad mass student organization for this purpose should be the American Student Union, which as a UNION FOR STUDENTS, must fight for government aid for needy students, for a really free education, free textbooks, carfare, and hot lunches. It must help students improve their home life by HELPING THEIR PARENTS FIGHT FOR BETTER CONDITIONS—by COOPERATING with the LABOR UNIONS, by conducting education as to the importance of unions, and by EDUCATING STUDENTS to be GOOD UNION MEMBERS in the future." "The A.S.U. should conduct its own educational activity. Such educational work must include the danger of fascism, the racial and national question with particular emphasis on the Negro question. In fighting for academic freedom, a fight which will grow out of the fight for economic needs or to VITALIZE THE CURRICULUM, THOSE FORCES which suppress the freedom of thought and expression in the schools SHOULD BE LINKED UP WITH THOSE FORCES WHICH ARE DRIVING TOWARD FASCISM." "To the students, FASCISM will then not be a word but will be something very concrete."

NOTE: IT IS WELL HERE, TO BRING TO YOUR ATTENTION, THE FACT THAT WITH REPEATED REGULARITY—ANY SUGGESTION REGARDING CURRICULA, TEACHING METHODS, EXAMINATION OF BUDGETS, ETC. — THE CRY GOES UP — THAT THOSE WHO QUESTION ANYTHING — ARE "FASCIST" — OR "SUPPRESSING FREEDOM OF THOUGHT" OR OBSTRUCTING "ACADEMIC FREEDOM." — How well these dupes follow the blueprint! "The task of the Communist student groups must be to coordinate and stimulate to activity all existing student groups. They must supplement the curriculum with Marxist—Leninist educations. Their most important task is to disseminate the idea of a FARMER-LABOR party and of a FARMER-LABOR JUNIOR FEDERATION. They must give every possible aid to the organizational drives of the C.I.O."

### "THE PUBLIC SCHOOLS AND THE TEACHERS"

"The task of the Communist Party must be first and foremost to arouse the teachers to class-consciousness and to organize themselves into the American Federation of Teachers, which is in the main current of the American Labor movement. They must concern themselves with the immediate problems — SALARY, TENURE, ACADEMIC FREEDOM, ETC." "It is gratifying that the American Federation of Teachers has taken a position as one of the most progressive unions." "It has endorsed the movement for a FARMER-LABOR Party, has passed resolutions to co-operate with the American League against War and Fascism and the American Negro Congress."

NOTE: THE AMERICAN LEAGUE AGAINST WAR AND FASCISM cited as subversive and Communist by Attorney General, Congressional Record, Sept., 1942. AMERICAN NEGRO CONGRESS cited as a Communist front organization by Attorney General, May, 1942. "Every care must be taken to bring together in united front actions all existing teacher organizations. Especial attention must be paid to secure such action with the American Association of University Professors, The National Educational Association (N.E.A.) and the Guild. OUR PARTY MEMBERS IN THESE ORGANIZATIONS must work actively toward this end." "Communist teachers cannot afford to ignore this fact—that they come in contact with the children of the masses, that they are responsible for training these children. They MUST realize that the primary function of the school is to educate these children and this will be true to a much greater extent in a socialist society than now. Communist teachers are therefore, faced with a tremendous social responsibility. They MUST consider not merely their own teacher problems, but the problems of the children. They MUST FIGHT for the latter. They MUST MOBILIZE other teachers in this fight. They MUST TAKE ADVANTAGE OF THEIR POSITIONS, WITHOUT EXPOSING THEMSELVES. The Party must take careful steps to see that all TEACHER COMRADES are given thorough education in the teachings of Marxism-Leninism. Only when teachers have really mastered Marxism-Leninism, will they be able skillfully TO INJECT IT INTO THEIR TEACHING AT THE LEAST RISK OF EXPOSURE AND AT THE SAME TIME TO CONDUCT STRUGGLES AROUND THE SCHOOLS IN A TRULY BOLSHIEVICK MANNER."

### "THE SCHOOL AND THE COMMUNITY"

"It is necessary to strengthen the student and teacher movement by cooperation with the parent groups. The Party should work ACTIVELY WITHIN Parent-Teachers Associations and all similar organizations. The schools form the only rallying point for all sections of a community. The movement around the schools breaks down lines of division which keep apart members of various nationalities, churches, creeds and political parties. School buildings are frequently used for community meetings. A PEOPLE'S MOVEMENT around the schools can thus transform the latter into POPULAR FORUMS FOR PROGRESSIVE SOCIAL ACTION—ultimately into FORUMS FOR THE REVOLUTION."

NOTE: Please pay particular attention to this next paragraph—

"In tsarist Russia, at the time of the Revolution of 1905, the universities had been granted autonomy as a result of conflicts with the students. The result was that the universities became forums for the whole revolutionary movement. If this could occur in tsarist Russia, why should we in a bourgeois democracy not be able to use the schools for social progress?"

### "HIGHER EDUCATION"

"The same student and teacher organizations mentioned must orientate themselves toward the different conditions prevailing in colleges and universities. Demands must be put forward for the ECONOMIC NEEDS of students and teachers, for ACADEMIC FREEDOM and against RACIAL DISCRIMINATION." "Party fractions should be set up within classes and departments by means of discussions, brochures, etc., bourgeois commissions or distortions in the regular curriculum. MARXIST-LENINIST ANALYSIS MUST BE INJECTED INTO EVERY CLASS." "Efforts must be made to swing the college community out of its academic isolation and self-satisfaction into alliance with the working class, FARMER-LABOR class, and all PROGRESSIVE MOVEMENTS."—"If you are at all informed—then you are aware of what great success the Comrades have had in following the blue-print. AND THEY ARE STILL BUSY FOLLOWING THEIR CHARTED COURSE. Proof:

Taken from the Daily Peoples World, December 3, 1954—headlines:

"IPP URGES VOTERS CONCENTRATE ON COUNCIL SCHOOL BOARD RACES." "Key issues listed by the IPP: 1) To guarantee the active participation of all liberal elements including LABOR, minority peoples, TEACHERS, YOUTH and COMMUNITY ORGANIZATION. 2) To fight for Negro and Mexican representation on the city council and BOARD OF EDUCATION. 3) To fight for labor representation on both city council and SCHOOL BOARD."

### FOOD FOR THOUGHT:

The Communist Party have stated clearly and openly that their most important fields for operation are: Unions — Education — Farmers and Farm Groups. Then why should we not be more determined than ever to keep Communism out of the field of agriculture — to stop further control in the Public School System and expose what is already there???? If these are the key places for the Communist to operate then lets keep them the key places for Americanism.
